FALL 2024 SUGGESTED COURSES

Marine Science (MSCI)

Course Load
As you adjust to the quarter system and/or a new environment, we recommend enrolling in \(12-14\) units, with no more than 3 labs.
You can determine if your course has a lab in the course description. All course descriptions, including prerequisites, can be found in the Cal Poly Catalog.

- \textbf{MSCI 100}: Introduction to Marine Sciences (1 unit) - \textit{only offered fall term}
- \textbf{BIO 263}: Intro Ecology & Evolution (4 units)
  - If you have already satisfied BIO 263, consider one of the following:

\*GE Upper Division B will be satisfied through completion of \textbf{STAT 313}

\textbf{ELECTIVES}

It’s a good idea to consult advisors about your elective choices, especially if you plan to pursue graduate studies. Pay special attention to the footnotes on your curriculum sheet. Courses used in the core of the major cannot also be used in the electives. However, if an elective course is also a GE, it can be used to fulfill both elective and GE requirements.

\textbf{GENERAL EDUCATION}

If needed, complete any remaining lower-division GE courses. Otherwise, select an upper-division GE course from area C or D. Some GE courses may also be used to satisfy elective requirements.
