UPCOMING WORKSHOP
ETHICS AND SOCIAL JUSTICE FOR DATA SCIENCE

JOIN THE ETHICS AND SOCIAL JUSTICE COMMITTEE OF THE DATA SRI AT CAL POLY IN ITS FIRST-EVER WORKSHOP ON ETHICS AND SOCIAL JUSTICE (ESJ) FOR DATA SCIENCE PRACTITIONERS.

The interdisciplinary committee comprising of faculty from Philosophy, Computer Science, Education, Economics, and Urban Design and Planning will discuss and workshop a newly detailed rubric to evaluate research in data science with regards to ethics and social justice issues. Bring your own research so that you can apply a valuable toolkit for building out your research in this evolving space. Learn about ESJ issues, including data biases, algorithmic biases, and human biases.

Data for ethics and social justice emerged from the larger Cal Poly Strategic Research Initiative (SRI) Program awarded by the division of Research, Economic Development & Graduate Education. Note that the same workshop is being held across two days to accommodate more schedules, and the same material will be covered on both days.

THURSDAY, MAY 5TH
FRIDAY, MAY 6TH,
12:00 - 2:30PM
KENNEDY LIBRARY
RM 216Bc
