

# SOCS WORKSHOP INFORMATION

We are currently accepting proposals to lead workshops for SOCS. Our theme this year is “Weaving a New Generation” and we hope to host workshops that will help guide this theme. The theme is interpreted as a framework to build community between students, staff, and faculty with the hopes that the passion for social advocacy will be passed on to the next generation of folks at Cal Poly.

As these are only proposals, you may submit more than one. One or more of your proposals may be selected but be aware that submitting multiple proposals does not increase your chances of leading a workshop.

We will be providing child care at SOCS for those who need it. Additionally, we request those who lead workshops at SOCS to either attend an additional workshop during the summit and/or volunteer at the summit for 1-2 hours.
