2018-2019 in pictures with

Dennis Derickson
Electrical Engineering Department Chair
California Polytechnic State University
San Luis Obispo, CA
dericks@calpoly.edu
Here is a picture with my faculty colleagues in the Electrical Engineering Department at Cal Poly in May 2019.
Here is a picture of a portion of a poster created by “The Diversity Project” club that Tina Smilksein started this year. It was used as part of our open house activities in April 2019.
Here is a picture of the Electrical Engineering Lobby where the Society of Women Engineers is holding a Hands-on workshop During our open house In April 2019.
We had two induction Ceremonies for our Eta Kappa Nu Group. This Is a picture of the spring 2019 inductee group. Eta Kappa Nu is the Electrical Engineering Academic Honor Socieity.
This picture honors Professor Ahmad Nafisi (second from left) for his 35 years of service to Cal Poly.

Dr. Nafisi is starting a Faculty in Early Retirement Program next year.
Anritsu and the Burgoon Family foundation donated funds for new microscopes, soldering irons, reflow stations as part of an Electronics Manufacturing Laboratory in the department.
This picture shows the Participants in our trip To Anritsu in January 2019.

Anritsu is a major sponsor of our high frequency design Laboratories.
This picture shows 6 inch diameter coax cable on the Sutro Tower (San Francisco) that we visited as a group in November of 2019. The coax can handle 50kW of radio frequency power.
Here is a picture from
Our annual EE Banquet.
Highlights included our
Speaker Karen Bartleson
(past IEEE president) and
A dance routine from students.
Annual Trip to the Photonics West trade show in San Francisco in Feb 2019.
Trip to the Electrical and Computer Engineering Department Heads Conference in Tucson, Arizona.
We had 5 presenters from Electrical Engineering at The American Society of Engineering Education Meeting at Cal State LA This year.

Here is an IQ modulator board used in the EE456 laboratory
This is my 4H robotics Group preparing robots For the state 4H robotics competition
I organized the California State 4H robotics competition on June 2, 2019. Here is one of the 4 events at the Competition.
Summer 4H camp robotics.
Robotics at the California Mid State Fair July 2019.
I ran a group of laboratories for the Cal Poly Epic Summer Camp. This lab used the Arduino microprocessor. The student is hooking up an LCD display in this example.
The Derickson family
Celebrating the end of the
Academic year with a trip to
Hawaii.
