

2011–2013 Catalog Changes

College of Agriculture, Food and Environmental Sciences

Note: The following curriculum changes, unless otherwise noted, have been approved by the Academic Senate.

Many of the entries reflect prerequisite changes as a result of the Prerequisite Project which occurred during the previous academic year, to be effective with the 2011-13 catalog. If a prerequisite change was included in that project but not included in the 2011-13 catalog proposals, it appears below in blue. If it was included in both the Prerequisite Project and in the 2011-13 proposals, a statement will appear for a course entry in the "Other" column (e.g., "same prereq as prereq project").

Summer 2011
