5. RESEARCH AND SCHOLARLY ACTIVITIES

a. Current Research

Continued to work with means-end theory and have completed several projects using means-end theory. Studies include Outward Bound/NOLS 5 year longitudinal study, dog park participant outcomes, skateboard park participant outcomes, Special Olympic volunteer outcomes, and AT/PCT hiker outcomes. I have also worked with the CA State Park Attitude and Opinion Survey. Currently I am working on research projects examining motivations of participation in small charity events, altruism by Trail Angels on the Pacific Crest Trail, social media use with youth and the outdoors, and Pokemon Go participation.
