

Catalog Decision Tree for Nutrition Students

^ = Action Item:
 Stay on current catalog^
 -- Follow "Steps for nutrition students who plan to stay on the current catalog" on nutrition curriculum website

Consider CHANGE^ to 2019-20 Catalog
 -- Follow "Steps for nutrition students who would like to change to new catalog"

*Be advised that changing to the new catalog will likely mean completing 4 more units that staying on your current catalog.

NOTE: The FSN Department plans to make the transition to the new catalog over the next two years. Students who stay on the current catalog should be aware the department is currently planning on offering FSN 328, 329 courses in the 2019-20 AY and the FSN 429, 430 courses in the 2019-20 AY and 2020-21 AY. If it is looking like less students than we anticipate are not transitioning to the new catalog then we will revisit our planned offerings.
