PROFESSIONAL REFERENCES

I have had the pleasure of working with Sherry for many years and served as her manager at Providence Holy Cross Medical Center in Mission Hills, California. Sherry is a dedicated and effective professional who serves her patients well with her caring and compassion. Her clinical skills and critical thinking are exceptional and she is experienced in the art of patient assessment, engagement, education and support. She provided diabetes and nutrition education to a multicultural patient population and Holy Cross and developed classes and teaching materials tailored to the cultural needs of the patients.

Sherry is an eager team member, and has a 'yes I can do that' attitude. She assisted with quality improvement projects, research, professional presentations and hospital policies and protocols. She is highly competent and learns quickly. She is one of the best diabetes educators I have had the privilege of working with and I endorse her skills, knowledge and ability to be a productive team member and effective educator. If you would like to contact me further, please do not hesitate to reach out.

Donna Ryan RN, RD, MPH, CDE, FADE

PROFESSIONAL REFERENCES (CONTINUED)

It is without hesitation that I recommend Sharon (Sherry) Elliston for any position that meets her qualifications. Over the past seven years that I have had the privilege to know her, Sherry has demonstrated consistently dependable, high standards of professional care and clinical services throughout our associations.

Sherry has been at Providence Holy Cross first working as a dietitian who many years ago, advanced her skills and became specialized as a Certified Diabetes Educator. I was previously employed as her manager in the Diabetes Education Department.

Sherry is a consummate professional and a pleasure to have as a colleague. She is appreciated for her positive attitude, strong people skills, excellent clinical knowledge, advanced technical competence and bilingual English/Spanish ability.

Sherry demonstrates mastery of adults and pediatric patients with Diabetes Types 1, Type 2 and gestational. She is an insulin pump trainer and has been a valuable resource for many complicated patients and their clinical management challenges over the years. Her contributions to program development and quality improvement projects are consistent with a magnet hospital's high standards and expectations.

In addition to her strong family commitments, Sherry manages to balance her time to participate in conferences, networking and educational opportunities to be current with industry updates. Sherry is also valued for being proactively responsive to coworkers and patients' needs and concerns, often going beyond expectations to provide support and extended resources.

I am confident that Sherry would be an asset to any team. Feel free to contact me for questions or further discussion.
