

Work with a Startup!

www.getwayve.com

If you've always wanted to be part of an early-stage, fast-growing startup in San Luis Obispo, now is your chance!

We're looking for driven, entrepreneurial-minded students to join our team and help us with everything from marketing to product engineering.

What is Wayve?

Wayve is changing the way we consume water. Every year, 22 million American travelers getting sick from contaminated water abroad, and 63 million Americans are living without clean water in their own homes!

We're developing the world's first portable water purifier that *doubles as your reusable water bottle cap*.

We're providing clean water wherever you go, and we're helping reduce the amount of plastic waste generated from single-use plastic bottles.

The Wayve team works out of the CIE HotHouse in downtown SLO. Lead by Cal Poly grads Sierra Scolaro and Zach Pollatsek, we're looking to grow the team!

Open Positions

Product Development

Since we're a hardware company, we're seeking engineers (IME, ME, MATE, ENVE) who are passionate about building products that will help change the world. The role consists of prototyping, CAD modeling and rendering designs, and hands-on building and testing. Get ready to get your hands dirty! (But not that dirty...we're providing clean water, after all).

SKILLS & EXPERIENCE (preferred but not required):

- Fusion 360/Solidworks
- Engineering drawings
- Rendering
- Manufacturing & Prototyping
- General 3D printing knowledge

Design & Marketing

If you're one of those people with an eye for design, we're looking at you! This role consists of designing marketing materials to spread the word about Wayve, structuring the aesthetics of our website and social media, as well as providing input to the design of the product itself. Design experience is preferred—but if you're willing to learn just for us, that works too.

SKILLS & EXPERIENCE (preferred but not required):

- Adobe Suite
 - Wix or HTML CSS
 - Blender or other rendering software
 - SEO and Google Ads/Analytics
- 

Finance & Accounting

That's right business majors, we've got a spot for you too. We're raising Seed money to help fund our business, and we need help cooking the books! Ha, just kidding. This role consists of managing the finances, keeping track of expenses, predicting sales, and structuring financial statements. Negotiation skills are a bonus, as we'll be meeting with lots of lawyers and investors.

SKILLS & EXPERIENCE (preferred but not required):

- Excel
- Intuit / Quickbooks
- Managing financial statements
- CAP tables for investment

Benefits

- **Build up your resume** and get hands-on experience working with the founders of a brand-spankin-new startup
- **Get class credit!** We've talked with several department heads, and you may be eligible to receive school credit by working with us.
- **Work alongside other entrepreneurs** in the Cal Poly CIE HotHouse, an incubator in beautiful downtown San Luis Obispo.
- **Free** coffee!
- **Flexible hours!** Work part-time, full-time, part-part-time...whatever you can manage.
