

Wayve

Product Team Lead

www.getwayve.com

If you've always wanted to be part of an early-stage, fast-growing startup in San Luis Obispo, now is your chance!

We're looking for a driven, creative, technically-skilled individual to fill the role of **Product Team Lead**.

WHAT IS WAYVE?

Wayve is changing the way we consume water. Millions of Americans are opting for filtered water over tap, either due to the increased contamination of their water sources or simply because of the taste. Meanwhile, the growing initiative to be an eco-friendly consumer has contributed to a rising demand for reusable water bottles.

That's where we step in.

We're developing the world's first portable water purifier *that doubles as a reusable water bottle cap*.

We're providing you with the means to filter your water directly from the sink, and we're helping reduce the amount of plastic waste generated from single-use plastic bottles.

To put it simply: Wayve is making it easy and eco-friendly to purify your water on-the-go.

JOB DESCRIPTION

Product Team Lead

- Responsible for all product-related matters, including but not limited to:
 - Product innovation, design, and development.
 - Product launch and release.
- Identify and select Wayve's manufacturing partners and supply chain.
- Generate and support the creation of intellectual property for Wayve.
 - Head the filing of our Provisional Patent.
 - Produce sketches, models, and description of product utility and design.
 - Act as main point of contact for our IP/patent attorney.
- Lead a team of 6-8 part-time Cal Poly student engineers (Mechanical, Industrial, and Materials Engineers).
- Provide status reporting on product development to Wayve Leadership and Advisory Board.

REQUIREMENTS

- Required:
 - Can work in San Luis Obispo (75 Higuera St, San Luis Obispo, CA 39401)
 - Minimum of 20 hours per week; full-time preferred
 - Experience in Product Development and release of hardware products
 - Experience CAD modeling and rendering (Solidworks or Fusion)
 - Leadership experience
- Preferred:
 - Experience working with manufacturers
 - Knowledge of supply chain logistics
 - Completed degree in Mechanical, Industrial, or Materials Engineering

BENEFITS

- **Leadership** experience heading and growing a Product Team.
- **Equity** in a growing business. Additional compensation to be discussed in person.
- **Work alongside other entrepreneurs** in the Cal Poly CIE HotHouse Annex, an incubator in beautiful downtown San Luis Obispo.
- **Flexible hours!** While we do ask for your attendance to scheduled Team Meetings, your work will be driven by milestones and goals.
