This estimate is 0.5% above Cal Poly's internal target of 16,913.**

This estimate is 1.3% below Cal Poly's internal target of 15,674.**

Projections are calculated based on enrollment at the same point in time in the registration process from the most similar previous three years with more emphasis placed on more recent years. Due to variations in registration behavior from year to year, projections should only be considered **indicators** rather than predictors of final enrollment. Please note that we have adjusted these projections because registration procedures were different in Spring 2005.

* New second bachelor's students are included in the "New Transfers" group, but not in the undergraduate total. They are counted in the post-baccalaureate total. "New Transfers" also include students returning in a new major and transitory students.
