## Projections for this point in time are not available

Projections are calculated based on enrollment at the same point in time in the registration process from the most similar previous three years with more emphasis placed on more recent years. Due to variations in registration behavior from year to year, projections should only be considered **indicators** rather than predictors of final enrollment. Please note that we have adjusted these projections because registration procedures were different in Winter 2005.

\* Winter 2005 targets are the original targets set prior to CSU increasing the campus college year target in August 2004.
