Upcoming Talk by Sonoma State Roboticist and Philosopher **John Sullins**

Abstract: In a world where social robots are becoming increasingly common, the ethical implications of their design cannot be ignored. Join us as we explore groundbreaking experiments that **utilize the concept of inner speech found in psychology to create social robots with some glimmers of an ethical conscience**. Giving users access to the inner dialog of the robot helps the users understand the conscience of the machine as it reasons through decisions as well as bringing to consciousness for the human users that there is an ethical problem that must be dealt with. We'll also discuss how this concept of inner speech plays a role in skilled moral reasoning, or what philosophers call phronesis, and its potential impact on the future of robotics in the context of elder care.

The talk will take place in Building 08 (BRAE) room 123, during the UU Hour (11:10 AM – 12 PM) on **Thursday, April 20**. The talk is funded through CLA lottery funds, with support from PHIL and CSSE.

OWN: Original Womxn's Narratives coming up this weekend!

Join the Cast and Crew for the Gender Equity Center's: Original Womxn's Narratives: OWN, April 22 and April 23 at 7pm in Spanos Theatre

This event is FREE to the public. This event will not be ticketed and seating is first come first serve.

After years of producing The Vagina Monologues, we are now in the eighth year of the show created within the Gender Equity Center: Original Womxn's Narratives (OWN), a production that works to be a radical vehicle for representation and diversity. OWN is a student-created production at the intersection of social justice and theatre, exploring stories about taking ownership of or defying expectations of gender. OWN features stories of misogyny-affected people, the gender nonconforming experience, and experiences of marginalization through gender in body, mind, and/or spirit, be that in past, present, future, and/or fluid. The stories featured in OWN 2023 were written and submitted by Cal Poly and SLO community members. We recognize there are more diverse stories out there than we could represent.

You can RSVP now using the link below, we hope to see you there!

April is Sexual Assault Action Month! - Take Back the Night Event

This year's theme is "Resistance & Resiliency" to recognize the long-term commitment to social justice that this anti-violence movement requires, while also celebrating the resiliency of survivors in our community. Events include survivor healing craft events, therapy dogs, a Lunch & Learn dialogue about consent beyond sex, a community art project, and Denim Day. Our community will note the Cal Poly "P" painted teal for 2 weeks out of the month to bring attention to these events. The month culminates in our biggest night of the year!:

Take Back the Night | Thursday, April 27, 5-8:30pm | UU Plaza

Take Back the Night is an international movement against sexual violence, with its own roots in San Luis Obispo since the 1980s. With a focus on uplifting survivors and building empowerment in community, this event will feature live music, catered food, art installations, local vendor and resource fairs, speakers from the local community, a solidarity march and end with a candlelight vigil. This event is made possible with generous support from ASI Events, Planned Parenthood, and the Career Services Diversity Funding Committee.
