WEEKLY NEWS

Note from Dr. Kirby

As Week 4 begins, remember to take care of yourselves as you begin to see more and more assignments due in your classes. There are also plenty of events and activities happening this month that will help make your Cal Poly and IS experience richer. My office hours this quarter will be Tu 1-3PM and Th 1-3PM. So during these times you can drop by my office or you can contact me via Zoom using this link: 6247671135. As always, I am also happy to set up other meeting times if you are not able to make these office hours. Just send me an email and we can arrange a day/time.

If you have any news or events that you would like to share with your fellow IS majors then please let us know at is@calpoly.edu.

Upcoming Art Exhibit - LIFELIKE

LIFELIKE, a group exhibition curated by writer, curator and artist Katie Peyton Hofstadter, explores the work of ten artists logging biological, genetic, and behavioral information on a digital ledger, to invoke a conversation about body sovereignty in our technopresent. The exhibition also features an interactive and VR experience, presented by **EPOCH**, and a performance schedule spanning the **Cal Poly University Gallery**, the **San Luis Obispo Museum of Art (SLOMA)** and the **Center for Expressive Technologies (CET)**.

The artists in this exhibition are interested in what it will mean, and how it will feel, to have a body in a future where wetware (living tissue) serves as a foundation for technology, where medical implants monitor not only our hearts and minds, but also our experiences and relationships; and where decisions are made by programs [even their creators](#) do not fully understand. Today, phones harvest information about our bodies and behaviors [by default](#). How does it feel to seek digital connection when our every swipe, movement, and private message is [under surveillance](#)?

Using their own bodies, these artists stress-test the present and near-future, probing how information flows between our biological and virtual identities, and expanding our vocabulary through imaginative scenarios. By bringing a creative lens to the conversation, they invite the possibility that the lab rats might now take back control.

This exhibition expands the ideas put forth in Hofstadter's text, [Bodies on the Blockchain](#) (2022).

The opening ceremony will occur **next Thursday, October 12, 5:30-7:30pm** in the University Art Gallery (Dexter, Building 34). For more information go to the [University Art Gallery web page](#).

Digital Impact and Governance Initiative (DIGI) Intern Wanted

Digital Impact and Governance Initiative at New America, is currently seeking candidates for an internship opportunity and we believe that students from your programs would be a great fit.

DIGI is dedicated to creating a bridge between digital solutions and democratic values. With the overarching mission of promoting equity, accountability, justice, and integrity in the digital domain, we are offering students an opportunity to immerse themselves in a dynamic environment where technology meets policy.

The internship we are offering is tailor-made for those keen on exploring the crossroads of tech and democracy. Not only will our interns gain hands-on experience in pertinent research projects, content creation, and strategic communications, but they will also have the chance to author or co-author publications, adding significant value to their portfolios. Additionally, they will benefit from all events hosted by New America.

Would it be possible for you to help amplify our search by sharing the internship details with potential candidates within your network? We'd greatly appreciate any assistance you can offer in terms of posting the position on relevant job boards, distributing through internal university channels, or even suggesting direct contacts who might be interested.

Any interested candidates can apply directly

Urban Trees VR position

The Center for Expressive Technologies Seed Grant Team is looking for a student assistant.

Undergraduate student wanted for an interdisciplinary research collaboration with the Urban Forest Ecosystem Institute (<https://ufe.calpoly.edu/>). UFEI researchers at Cal Poly are investigating the human benefits of trees in the urban environment. We seek a research assistant with an interest in Virtual Reality to create realistic fly-through experiences in urban environments across a range of socioeconomic and climate conditions in CA using 3D point cloud data from airborne Light Detection and Ranging (LiDAR). Desired qualifications: working knowledge of Python, JavaScript, or 3D game programming in Unity or similar. Interest in VR, GIS, remote sensing and urban forestry are a plus, but not required. Applicants should include a cover letter and resume and email to Dr. G. Andrew Fricker (africker@calpoly.edu), and Dr. Jonathan Ventura (jventu09@calpoly.edu).

Videographer Opportunity at Big Brothers Big Sisters

A note from Madi Walker:

My name is Madi Walker, and I am an AmeriCorps VIP Member at Big Brothers Big Sisters of San Luis Obispo County, a local non-profit in the area! I am reaching out to you with an opportunity for students in ISLA and STS.

In May 2024, we are hosting our annual BIG Event, a fundraising event that raises critical funds and encourages people in the community to become a mentor to an at-risk child in the area. We are currently looking for a Cal Poly student to create a short 4-5 minute film with the guidance of our Development Director. This film will highlight the stories of a few matches in SLO County as a way to show the power of mentorship and encourage more community engagement with our organization that we can share at the BIG Event.
