Mission Statement

The purpose of the creating G.E.O was to establish a unique experience for the youth in the town of San Luis. The site controls the existing environment with its connection from ground to wall planes. Through collaboratively one might be able to explore the spirit of creativity and push the boundaries through their academics or goals.

Walk-About

The Cal Poly Sculpture Park - A Walk-About: The sculpture park will bring the campus life to the campus and showcase professional art and student sculptures alike.

Diagrammatic Layout

The foundation of the design is represented through a diagrammatic section. No walls are over 15 feet high. The landscape acts as a social area for large gatherings. The paths lead the viewer through less dense areas to more open areas. The entry to the sculpture park is located at the northeast corner of the sculpture park. The entrance is comprised of a series of steps that lead into the sculpture park.
