What is the Forum?

The Forum is an all-day event designed for students from underrepresented and underserved groups to explore the academic and career opportunities associated with advanced study in a wide range of disciplines.

In addition, students will have the opportunity to meet representatives of the nation’s leading graduate schools offering Master’s and Ph.D. degrees and to attend workshops & panel sessions. More than 100 leading graduate institutions and over 150 representatives have already reserved tables for the event.

*Please note that this forum is not primarily designed for students interested in obtaining a medical, dental, pharmacology or law degree.
