

Mathematics Colloquium

Student Research Talks

Friday, May 18, 2018

4:10 – 5 p.m.

Building 53 Room 206

Abstract

At the conclusion of the 2018 CSM Student Research Conference, three of our students will be sharing their research with the department. After the students share their work, they will combine for a short question and answer panel. This event is intended for faculty and students to hear about some of our students' research. Students in their first, second, and third years are strongly encouraged to attend!

The titles and students presenting are:

“Algorithmic Predictor of Strawberry Variety Characteristics Through Machine ” presented by Eleni Pateras. Her work was done under the guidance of Dr. Choboter.

“Models, Sets, and Independence Results in Set Theory” presented by Michael Hehmann. His work was done under the guidance of Dr. Shapiro.

“Game Theory and Jury Selection” presented by Stephanie Ray. Her work was done under the guidance of Dr. Mendes.

Cookies will be provided before the talks at 4 p.m.
in the same room as the talk, Building 53 Room 206.
