FRSC 123 Beekeeping (3)
Studies and exercises in the handling of European honey bees with special reference to pollination of commercial crops. Honey processing and marketing. Hive inspection and disease detection. 2 lectures, 1 laboratory.

FRSC 132 Pomology I (4)
Orchard design and development, cultural practices, physiological responses of trees to cultural practices, propagation and strategies to maximize orchard profitability and sustainability. Not open to students with credit in FRSC 230. 3 lectures, 1 laboratory. Prerequisite: HCS 120.

FRSC 133 Pomology II (4)
Analysis of production and management strategies for major fruit and nut crops in California. 3 lectures, 1 laboratory. Prerequisite: FRSC 132.

FRSC 202 Enterprise Project (2–4) (CR/NC)
Beginning field experience in management of orchards and vineyards or honeybees, under faculty supervision. Project participation is subject to approval by the department head and the Cal Poly Corporation. Degree credit limited to 4 units. Credit/No Credit grading only. 1 lecture, variable practicum.

FRSC 210 Viticultural Practices (2)
Propagation, layout and planting of a new vineyard, including irrigation and trellis system installations and management practices of established vineyards. Total credit limited to 4 units, 2 activities.

FRSC 230 California Fruit Growing (4)
Interrelationship of climate and cultural techniques on orchard productivity, California's place in the international production-marketing scheme. Field trip required. Not open to AEPS or FRSC majors, or students with credit in FRSC 132. 3 lectures, 1 laboratory.

FRSC 231 Viticulture I (4)
Understanding of internal and external factors affecting vine productivity. Historical and international perspectives on grape growing. Vineyard production strategies. 3 lectures, 1 laboratory.

FRSC 311 Survey of Viticulture (4)
Introduction to winegrowing including the life cycle of the vine, site selection and the concept of “terroir”, canopy management and cultural practices influencing wine quality. Decision making processes in pest management, irrigation strategies, and organic and sustainable vineyard practices. Current issues in mechanization and its impact on labor management, in the concept of business decisions. Not open to students with credit in FRSC 231. 4 lectures. Prerequisite: Completion of one of the following: BIO 111, BIO 162, BOT 121, or FRSC 210. Formerly FRSC 211. Change effective Winter 2013.

FRSC 331 Viticulture II (4)
Factors influencing vine physiology and grape quality. Recent advances in irrigation strategies, canopy management, and pest control. Budgets for profitable operation and mechanized viticulture. Field trip required. 3 lectures, 1 laboratory. Prerequisite: FRSC 231.

FRSC 342 Citrus and Avocado Fruit Production (4)
World citrus and avocado production and marketing. Orchard management techniques. Relationships of environment to species, cultivar, and rootstock selection. Field trip to a major California production area required. 3 lectures, 1 laboratory. Prerequisite: FRSC 230 or HCS 120.

FRSC 402 Enterprise Project Management (2–4) (CR/NC)
Advanced experience in production of orchards and vineyards. Development of a plan for field operations, a marketing plan, and a budget. Management decision-making. Degree credit limited to 2 units. Credit/No Credit grading only. 1 lecture, variable practicum. Prerequisite: FRSC 202 and consent of instructor.

FRSC 415 Grapevine Physiology (4)
Understanding of grapevine physiology, including anatomy, taxonomy, physiological growth processes, growth cycle phenology, bud break, flowering, fruit set, berry ripening. 3 lectures, 1 laboratory. Prerequisite: FRSC 231 and FRSC 331.
