WGS 455: Queer Theory

Dr. Steven Ruszczycky
Offered Spring 2020
MW: 12:10 – 2PM

This discussion-driven seminar will offer students an introduction to the field of queer theory.

Students will survey the field’s historical, political, and philosophical foundations, major debates and turns, and contemporary developments and offshoots. In doing so, we’ll take up the following questions together: what is queer theory? Who is it for? What use is it today?
