

ADVANCED PLACEMENT CREDIT-1997 Exams

Overview:

Students receive course and/or free elective credit based on scores received on various exams. These scores may appear on the high school transcript or on score sheets sent to us from ETS (see NOTE on page 3 for ordering information). The type of credit applied will, to some extent, depend on the student's major. All exams passed with a score of 3 result in nine (9) units of credit. If course credit is awarded, the unit value of the courses is subtracted from the nine units and any remaining units count as elective credit. Changes from the 1996 exam credit are marked with an asterisk (*). All credit is given on a credit/no credit basis; no units are calculated into the GPA.
