*Freshmen/transfers – Degree Planner is a required planning tool that enables you to specify your future academic plans. Plans provide valuable course demand information to Cal Poly, and departments reference the data to determine their future course offerings. Degree Planner improves course availability and helps you graduate on time.*

*Degree Planner is located in the Student Center in your My Cal Poly Portal. Student Center will appear on the left-hand side under your My Apps, second choice down. Both Degree Planner and Schedule Builder are located in the Student Center, under the Academics tab on the left-hand side of the screen.*
