Minimum Qualifications (Staff Only)

Minimum qualifications include M.S. in Agriculture, Agricultural Communication, Journalism or Agricultural Education and at least three years outstanding success as a high school teacher of agricultural education or as a professional communicator; and excellent written and oral communication skills. Preference will be given to candidates who have significant communication experience or have demonstrated excellence in teaching. The successful candidate must be able to work effectively with teams and interact well with peers, students, industry, government agencies, and the general public. Candidates who demonstrate a commitment to diversity, and who have international experience or the desire to cultivate international links, are of particular interest.

Required Qualifications / Specialized Skills

Preferred Qualifications / Skills

A background check (including a criminal records check) must be completed satisfactorily before any candidate can be offered a position with the CSU. Failure to satisfactorily complete the background check may affect the application status of applicants or continued employment of current CSU employees who apply for the position.

Special Conditions

The person holding this position is considered a 'mandated reporter' under the California Child Abuse and Neglect Reporting Act and is required to comply with the requirements set forth in CSU Executive Order 1083 as a condition of employment.

May be required to complete a Supplemental Employment Application Questionnaire, which contains questions pertaining to conviction history, and submit it when requested by Cal Poly. This disclosure is confidential and will not necessarily preclude applicants from employment.

To apply, please visit WWW.CALPOLYJOBS.ORG, complete a required online faculty application and apply to requisition #104463. Be prepared to attach the following required materials to your online application: cover letter and resume or curriculum vitae. Please be prepared to provide three professional references with names and email addresses when completing your application. If selected, official transcripts will be required prior to appointment. For additional information, refer to Recruitment #104463 and contact: Dr. Robert Flores, Head, Agricultural Education and Communication Department, at 805-756-2169 or rflores@calpoly.edu. REVIEW BEGIN DATE: July 7, 2017.

At California Polytechnic State University, San Luis Obispo, we believe that cultivating an environment that embraces and promotes diversity is fundamental to the success of our students, our employees and our community. Bringing people together from different backgrounds, experiences and value systems fosters the innovative and creative thinking that exemplifies Cal Poly’s values of free inquiry, cultural and intellectual diversity, mutual respect, civic engagement, and social and environmental responsibility. Cal Poly’s commitment to diversity informs our efforts in recruitment, hiring and retention. California Polytechnic State University is an affirmative action/equal opportunity employer. EEO.

Department Information (Faculty) The Agricultural Education and Communication Department at Cal Poly has approximately 260 undergraduate students, 155 Master's Degree candidates, and seven full-time and one part-time faculty who teach in the areas of teacher education and agricultural communications. Cal Poly produces nearly half of all of the newly credentialed Agriculture teachers for the state of California each year. Graduates of the department have proven to be effective leaders in secondary, post-secondary, and higher
education, not only in California, but throughout the United States. Cal Poly is viewed as the "home" for agricultural education in California. The State FFA Judging Finals and the Summer Conference for the California Agricultural Teachers' Association have been held on the Cal Poly campus for over ninety years. Faculty and staff of the department are responsible to providing professional development programs for secondary Agriculture teachers via a contract established each year with the California Department of Education. The full-time lecturer(s) may have a significant role in fulfilling the professional development contract. The Brock Center for Agricultural Communication is housed within the Agricultural Education and Communication Department, and serves as the laboratory for students to develop their writing, social media, and verbal communication skills.

Cal Poly's College of Agriculture, Food and Environmental Sciences (CAFES), the largest non-land grant agricultural program in the U.S., awards nearly half of all baccalaureate agriculture degrees granted in California. The college is a leader in providing students with real world skills based on Learn by Doing laboratory and field intensive curriculum, contemporary instructional technology, and uncommon access to senior faculty in small class settings. The college spans more than 6,000 acres of land adjacent to the campus core, as well as an additional 4,000 acres throughout the state. It is comprised of nine academic departments and approximately 170 faculty, 80 staff, and 4,000 students in 15 majors. In addition, the college is home to a number of unique enterprise projects, centers and institutes.

Cal Poly is a nationally ranked, four-year, comprehensive public university located in San Luis Obispo, California. The emphasis of the University is on a Learn by Doing educational experience for its more than 21,000 students. Cal Poly is a residential campus, with an on-campus population of approximately 7,000, making it the largest student-housing program in the 23-campus California State University (CSU) system. U.S. News and World Report has ranked Cal Poly No. 1 among public master's universities in the western United States for 21 consecutive years. Many students seek admission to Cal Poly not only because of its excellent academic reputation, but also because the 6,000-acre main campus is nestled in the foothills of San Luis Obispo, just minutes from California's Central Coast beaches.

Cal Poly is located in historic San Luis Obispo, a city of 45,000, 12 miles from the Pacific Ocean and midway between San Francisco and Los Angeles on California's scenic Central Coast. With excellent public education resources, recreational facilities and an expanding dedication to the arts, the area is known for its scenic landscapes and extraordinary temperate climate.
