Every effort has been made to assure the accuracy of the information in this booklet. Teacher candidates and others who use this booklet should note that laws, rules, and policies change from time to time, and these changes may alter the standards and policies required by the California Commission on Teacher Credentialing; statutes enacted by the California Legislature; and rules and policies adopted by the California State University Board of Trustees, by the Chancellor or designee of the California State University system, or by the President or designee of the institution. Further, it is not possible in a publication of this size to include all of the rules, policies, and other information that pertain to the teacher candidate, the institution, and the California State University system.

Nothing in this booklet shall be construed, operate as, or have the effect of an abridgment or a limitation of any rights, powers, or privileges of the Board of Trustees of the California State University system, the Chancellor of the California State University system, or the President of the Cal Poly campus. The Trustees, the Chancellor, and the President are authorized by law to adopt, amend, or repeal rules and policies that may apply to teacher candidates.

This booklet does not constitute a contract or the terms or conditions of a contract between the teacher candidate and the institution or the California State University system. The relationship of the teacher candidate to the institution is one governed by statute, rules, and policy adopted by the California State Legislature, the Trustees, the Chancellor, the President, and their duly authorized designees. Any question on the information contained should be directed to your academic advisor or the School of Education.
INTRODUCTORY COMMENTS

From the SOE Director and Program Coordinator

Dear Teacher Candidate:

We are delighted to have you join the SSTEP Program. This program handbook along with documents on the School of Education website and in your courses are intended to guide you and provide critical information that will assist you in navigating your SSTEP experience.

We hope your participation in the program leads to success and becoming a credentialed teacher. While much of the teaching, guidance, and nurturing during the teaching credential program comes from the university faculty, cooperating teachers and university supervisors, we also know that teacher candidates nurture, guide, and teach each other – and may provide cooperating teachers and university supervisors with new ideas as well.

As you engage in this rich, multi-faceted opportunity to teach, learn, and share, please contact others in the School of Education as needed if questions or concerns arise. We also welcome your ideas on program improvements for future teacher candidates.

Congratulations on choosing the rewarding profession of teaching for your career!

Sincerely,

Dr. Kevin Taylor, Director
Cal Poly School of Education

Nancy Stauch, Coordinator
Single Subject Credential Program

General Note: Many of the sections in this handbook highlight important policies that students should be familiar with. These policies come from California Ed Code, the California Commission on Teacher Credentialing, CSU Chancellor’s Office, official Cal Poly policies, policies approved by the SOE Coordinating Council, or policies adopted by the program. This handbook is intended to provide an easy resource for students to be more aware of these policies and how to locate them, if needed.

The guidance in this handbook is not a substitute for any official policy – official policies may change, even in the midst of an academic year. Students should be mindful to use the available links or resources to check official policies, or should reach out to their Program Coordinator with any questions.
I. OVERVIEW OF CAL POLY AND THE SOE

OVERVIEW OF THE UNIVERSITY

Cal Poly is one of 23 campuses in the California State University (CSU). Founded in 1901 as a state vocational high school, Cal Poly has evolved into a comprehensive master’s-level university, with an identity and reputation as a polytechnic institution. Nearly 75% of all students graduate in nationally recognized technical and professional programs that are balanced with the arts, humanities, and social sciences. This commitment has been particularly evident in our emphasis on experiential learning, a “learn-by-doing” approach that is a source of pride to Cal Poly.

Cal Poly Mission Statement

Cal Poly fosters teaching, scholarship, and service in a learn-by-doing environment in which students, staff, and faculty are partners in discovery. As a polytechnic university, Cal Poly promotes the application of theory to practice. As a comprehensive institution, Cal Poly provides a balanced education in the arts, sciences, and technology, while encouraging cross-disciplinary and co-curricular experiences. As an academic community, Cal Poly values free inquiry, cultural and intellectual diversity, mutual respect, civic engagement, and social and environmental responsibility. Approved by President Baker, March 22, 2010

To foster realization of the University’s mission and define the institution’s expectations for student learning, Cal Poly adopted seven University Learning Objectives in 2007. The University further defined those expectations with four Diversity Learning Objectives in 2008 (below).

University Learning Objectives (ULO’s)

When students graduate from Cal Poly, they should be able to:

- Think critically and creatively
- Communicate effectively
- Demonstrate expertise in a scholarly discipline and understand that discipline in relation to the larger world of the arts, sciences, and technology
- Work productively as individuals and in groups
- Use their knowledge and skills to make a positive contribution to society
- Make reasoned decisions based on an understanding of ethics, a respect for diversity, and an awareness of issues related to sustainability
- Engage in lifelong learning

Diversity Learning Objectives (DLO’s)

When students graduate from Cal Poly, they should be able to:

- Demonstrate an understanding of relationships between diversity, inequality, and social, economic, and political power both in the United States and globally.
- Demonstrate knowledge of contributions made by individuals from diverse and/or underrepresented groups to our local, national, and global communities.
- Consider perspectives of diverse groups when making decisions.
- Function as members of society and as professionals with people who have ideas, beliefs, attitudes, and behaviors that are different from their own.
OVERVIEW OF THE COLLEGE OF SCIENCE AND MATHEMATICS

In 2009, Cal Poly merged the professional education unit with the College of Science and Mathematics (CSM) to strengthen teacher development academically and operationally. In addition to housing the SOE, the CSM also houses the Center for Engineering, Science and Mathematics Education (CESaME) and the department of Liberal Studies, which provides subject matter preparation to prospective multiple subject teachers. The mission of the College of Science and Mathematics expresses similar principles, including a learn-by-doing approach with an intellectual and creative base, openness to new ideas and cultural diversity, and social responsibility:

College of Science and Mathematics Mission

The College of Science and Mathematics promotes the learning, understanding, and appreciation of science and mathematics as a basis for creative endeavors, intellectual pursuits, careers, and critical consideration of issues confronting society. It provides the foundation for the polytechnic curriculum, offers a rich and distinctive general education program, and prepares students pursuing degrees in the College for post-baccalaureate education and careers. An excellent and committed faculty guides Cal Poly-SLO students in developing the interest and capacity for lifelong learning by engaging their curiosities, imaginations, and critical and creative thinking skills.

Approved Fall 2005

OVERVIEW OF THE SCHOOL OF EDUCATION

In 1933, agricultural education became the first formal teacher education curriculum at Cal Poly, incorporating the learn-by-doing approach that continues as a hallmark today. In 1990, the unit changed from a department into the University Center for Teacher Education (UCTE), a center of pedagogy for university and school faculty that focused on new teacher preparation. In 2004, while retaining the “center” concept, the UCTE was renamed the College of Education. Then, in 2009, the unit became the School of Education (SOE) when it merged with the College of Science and Mathematics (CSM), with a goal to develop an innovative model of P-12 educator preparation by more closely linking education, math, and science faculty with school educators on curriculum, instruction, and supervision.

The purpose of the School of Education has evolved significantly since the institution first began to prepare agriculture teachers in 1933. Most recently revised in 2007, the SOE vision focuses on the School’s preparation of professional educators in today’s society, and the SOE’s mission reflects and extends the University’s principles of inquiry, collaboration, equity, and pluralism into the expectations for practice as well as the preparation of education professionals:

School of Education Vision

The School of Education develops and supports qualified, competent, and caring education professionals who prepare a diverse student population to become active and thoughtful participants in a democratic society. Approved February 1, 2007

School of Education Mission

The School of Education leads the campus in an all-university approach to preparing education professionals. These professionals create, assess, and modify environments, practices, and policies to foster the achievement of each and every learner; they strive for equity in schools and society; and they are committed to inquiry and professional growth for themselves and the advancement of P-20 education.

School of Education faculty model leadership in teaching, scholarship, and service through a grounded, reflective, learn-by-doing approach and through sustained collaborations with education partners: P-12 schools, families, community Schools, universities, and local, state, and national agencies.

Approved February 1, 2007, Modified 2016

In 2017, the SOE engaged in a comprehensive unit wide reflection of its assessment practices to identify strengths and weaknesses, streamline competing efforts, and respond to identified needs that emerged in conversations with each program and in an Employee Engagement and Satisfaction survey. During this process, the SOE recognized that its six School Learning Objectives (SLOs) did not capture the reality of current practices in the SOE. Several programs needed to revise their Program Learning Objectives (PLOs) as part of an effort to elevate our master’s specializations to standalone degrees, or as to maintain alignment with new TPEs and standards from the CTC. Additionally, the SOE recognized that stringent Learning Objectives were creating ‘Learning Objective overload’ as faculty struggled to
balance and integrate Cal Poly’s University Learning Objectives (ULOs), Diversity Learning Objectives (DLOs), PLOs, and SLOs with the standards that are more widely adopted and accepted by accrediting agencies and professional organizations in the field of education.

In order to create intentionality and efficiency across these many objectives, the SOE revised its SLOs as broader ‘shared themes.’ The goal of these shared themes is to broadly capture the umbrella of essential principles across the SOE, and Cal Poly. These themes are not designed to be measurable. Rather, they are a common lens for anchoring dialogue, professional development and PLO driven inquiry and assessment projects across the SOE. With this overarching framework in place, each program is now more empowered to develop and focus on measurable PLOs that reflect the standards and practices of their discipline.
II. CANDIDATE HANDBOOK

SSTEP PROGRAM NARRATIVE

The SSTEP Program is designed to provide a progression of university- and field-based learning experiences that create opportunities for teacher candidates to develop desired knowledge and skill for teaching, and to integrate foundational theories and principles with research-based practices for teaching at the secondary school level.

Teacher candidates must successfully complete all of the courses shown (which represent a combination of university- and field-based activity). Candidates MUST maintain a B Grade Point Average throughout the program.

(1) Program Learning Outcomes

To support the learning and development of ALL CANDIDATES, graduates will be able to

- Apply understandings of Learner Development, Learning Differences, and Knowledge of Students (EmpowerED, TPE 1)
- Create and maintain classroom routines and environments that promote learning, inclusivity, respect, and health/safety (EngagED, TPE 2)
- Demonstrate and apply curricular content knowledge to design and organize effective learning experiences (EmpowerED, TPE 3)
- Select and implement scientifically validated instructional approaches to meet individual learning needs (EmpowerED, EngagED, ConnectED TPE 4)
- Collect and analyze assessment data from multiple measures to make data-based decisions about student learning needs, service eligibility, and instructional modifications (TransformED, TPE 5)
- Demonstrate professionalism, ethics, legality, collaboration, and continuous growth and reflection (GroundED, TransformED, TP 6)
- Engage in educational research and inquiry to remain informed of best practices, current research, legislation and debate (InformED)

(2) Program Assessments

Teacher Performance Assessment: In addition to coursework and Clinical Practice assessments in your program, the CTC requires candidates to submit and pass an approved performance assessment prior to being recommended for a Preliminary Teaching Credential. Performance assessments are designed to be authentic exercises in which you demonstrate how you will plan, instruct, assess, and reflect on real lessons as a teacher. More information about CTC performance assessment requirement and edTPA can be found at https://www.ctc.ca.gov/educator-prep/tpa. To meet the performance assessment requirement, the MSTEP and SSTEP programs rely on edTPA, a national examination developed at the Stanford Center for Assessment, Learning, and Equity (SCALE) and administered by Pearson.

About EdTPA: Aspiring teachers must prepare a portfolio of materials during their student teaching clinical experience. edTPA requires aspiring teachers to demonstrate readiness to teach through lesson plans designed to support their students' strengths and needs; engage real students in ambitious learning; analyze whether their students are learning, and adjust their instruction to become more effective. Teacher candidates submit unedited video recordings of themselves at work in a real classroom as part of a portfolio that is scored by highly trained educators. Read more online at edtpa.com.

Support & Guidance: Support to prepare for the edTPA examination is embedded throughout coursework in the MSTEP and SSTEP programs. Every course includes opportunities for candidates to practice planning lessons, leading instruction, assessing student work, and reflecting on their teaching. We encourage all candidates to make the most of these practice opportunities, as they are the best preparation for success on the edTPA and in your future classroom.

More explicit and support and guidance for the edTPA is focused in the 424 methods and 425 seminar courses and edTPA Support Bootcamps (SSTEP). In these courses, candidates will receive support to prepare for the technical requirements of edTPA, to talk to their CT and site administrator about edTPA, and to read and understand an edTPA rubric. Candidates might also have the opportunity to write practice edTPA responses and to give peer-to-peer feedback. Note that there are limits to the types of support that faculty advisors may provide. Faculty advisors must follow edTPA guidelines regarding feedback and support.

Required Examination | Faculty & Coursework Support
---------------------|------------------
Elementary Education: Mathematics (Task 1-3) with Literacy Task 4 | Prof. Jessica Jensen
| EDUC 450 TPA Seminar | Content Area Advisor
| 424 Methods & 425 Seminar | 424 Methods & 425 Seminar

**Scoring:** All edTPA tasks for MSTEP and SSTEP programs must be submitted to Pearson for scoring by edTPA trained scorers. edTPA scorers are typically teachers with subject matter expertise in the area of the examinations that they are scoring. They have been trained by Pearson to be aligned to the scoring rubric. No scoring is completed by faculty members in the SOE, and edTPA guidelines prohibit SOE faculty from grading candidate edTPA submissions.

Once your edTPA examination is scored, you will receive an email to access your scores. Your scores will also automatically be reported to the edTPA score dashboard for Cal Poly SOE, where your program faculty advisor and members of the SOE staff can verify your score and advise you on next steps.

**Retakes, Remediation & Appeals:** If you do not pass the edTPA with your initial submission, you will receive an email offering remediation support for a retake. The email will most likely come from the SOE Assessment & Accreditation Coordinator, and will be followed up with contact from your program faculty advisor to set up a conversation to discuss next steps. Your program faculty advisor will also set up a plan for support and remediation while you retake your examination, however, the faculty advisor will still be limited, per the edTPA guidelines regarding feedback and support.

If you require a retake, you can resubmit one, two, or three sections of the edTPA in order to raise your score by the necessary number of points. It is up to you how many sections of the edTPA you choose to resubmit. In making a decision, you should consider the following information:

- To resubmit one section, the cost is $100. You can also resubmit two sections for $200 or all sections of your edTPA for $300. Cal Poly does not provide vouchers for resubmission so resubmission fees are your responsibility.
- You cannot reuse artifacts from your original submission, except in certain circumstances (see Resubmission Guidelines from edtpa.com). If you do not have additional assessments or video footage to choose from, you would need to acquire new artifacts before you would be able to resubmit these sections.
- Additional information regarding retakes and retake options is available on the edTPA website http://www.edtpa.com/PageView.aspx?f=GEN_RetakingEdTPA.html

If you believe that a score (not a condition code) on one or more rubrics was reported in error, you may submit a written request for an appeal, called a request for a ‘Score Confirmation’. edTPA charges a fee of $200.

**edTPA Data & Privacy:** Your edTPA score report will be reported to you and to the Cal Poly SOE, if you indicated your educator preparation program during exam registration. If applicable, scores are also reported directly to the relevant state agency responsible for educator licensure. Within the School of Education, your scores will be viewable by program faculty, the Credential Analysts (to verify passage for your credential), and to the Assessment & Accreditation Coordinator (as the central edTPA contact for the unit).

Please note that the School of Education is required to regularly examine and reflect on edTPA data as a measure of candidate success, and so aggregate edTPA scores and trends are often analyzed and discussed across the unit. The SOE may also be required to report aggregate edTPA scores and passage rates to our accreditor (the CTC), grant funders, or other partners. For some programs with very few students, it can be more difficult to guarantee anonymity in aggregate data. As a best practice to secure student privacy, the SOE typically does not release student demographic or measurement data when a group of students is smaller than 10.

**Questions & Contact Info:** For general questions, please refer to the edTPA FAQ. For specific questions about the edTPA administration and requirements, we encourage you to contact edTPA and Pearson directly. Contacting the edTPA is the best way to make sure you get accurate and complete guidance about examination policies. Within the School of Education, the Assessment & Accreditation Coordinator is the unit contact person for edTPA.

**CAL POLY’S SINGLE SUBJECT FRAMEWORK FOR TEACHING AND LEARNING**

Cal Poly’s Single Subject Framework for Teaching and Learning has four intertwined and layered principles. At the core, we position students — particularly historically marginalized students — as assets. Positioning students as assets requires educators to investigate their students’ experiences, knowledge, and ways of being to advance their academic achievement. Throughout the program, teacher candidates will affirm, center, and integrate secondary students’ distinct and collective assets to engage in inclusive and equitable teaching and learning.

Building from our asset-based approach, we advocate for teacher candidates to be lifelong learners, and our program utilizes an inquiry-based design. Throughout coursework and field experience, teacher candidates will engage in inquiry projects that examine secondary students, schools, and the broader community; incorporate relevant scholarship; and reflect on their classroom practice and positionalities. In
addition, teacher candidates will learn about and employ inquiry-based instruction, positioning their students as active learners and researchers.

The third principle is **curriculum design** and focuses on developing students’ subject-matter content knowledge, academic skills, and socio-emotional wellness. Throughout the program, teacher candidates will utilize a backward design framework for curriculum development, identifying measurable goals, designing assessments aligned with these goals, and creating lesson plans that engage students with diverse linguistic and multifaceted learning needs.

Lastly, **culturally responsive teaching** provides a pedagogical framework to apply the inner components of the Framework for Teaching and Learning. Culturally responsive teaching focuses on creating culturally-caring classrooms, high expectations, and meaningful learning that connects to students’ lived experiences, realities, and ways of knowing. Throughout the coursework and field experience, teacher candidates will engage in a process of reflection, theory, and application of culturally responsive classroom management, teaching, and instruction.

**Curriculum Design**

### ACCOUNTABILITY FOR ACCREDITATION & CTC STANDARDS

Pursuant to California Education Code, any program of professional preparation must adhere to the requirements of the Commission on Teacher Credentialing (CTC) and must maintain accreditation through the CTC by participating in a seven-year review cycle. Because the CTC also issues all teaching credentials in California, candidates are strongly encouraged to be familiar with the CTC, its policies, and its standards for educators. The Cal Poly SOE Accredited Programs include:

<table>
<thead>
<tr>
<th>Credential Program</th>
<th>Delivery Model</th>
<th>Location</th>
</tr>
</thead>
<tbody>
<tr>
<td>Multiple Subject Credential – Preliminary Multiple Subject Teaching Credential</td>
<td>Traditional</td>
<td>Main Campus</td>
</tr>
<tr>
<td>Single Subject Credential – Preliminary Single Subject Teaching Credential: Agriculture, Biology, Chemistry, English, Geosciences Mathematics, Physics, Social Sciences, and World Languages</td>
<td>Traditional</td>
<td>Main Campus</td>
</tr>
<tr>
<td>Education Specialist Credential – Preliminary Mild/Moderate Disabilities Credential</td>
<td>Traditional</td>
<td>Main Campus</td>
</tr>
<tr>
<td>Administrative Services Credential – Preliminary Administrative Services Credential</td>
<td>Traditional (Intern available, but not in use currently)</td>
<td>Main Campus</td>
</tr>
<tr>
<td>Agriculture Specialist Credential – Clear Agriculture Specialist Instruction Credential (offered through the CAFES)</td>
<td>Traditional</td>
<td>Main Campus</td>
</tr>
<tr>
<td>Supplementary Authorization - Bilingual Education</td>
<td>Traditional</td>
<td>Main Campus</td>
</tr>
</tbody>
</table>
As part of accreditation, the above programs must adhere to the following CTC standards:

- **Preconditions** – General requirements for compliance with statutes, regulations, and policies. Preconditions generally govern admissions, program length, and credentialing. The **12 General Preconditions** apply to all Accredited Programs, as well as specific **Program Preconditions** for Multiple and Single Subject (7), Special Education (4), Administrative Services (5), Agriculture Specialist (4), and Bilingual Education (3). The SOE reports on Preconditions twice during its seven-year Accreditation cycle.

- **Common Standards** – **CTC Common Standards** apply to all Accredited Programs and address issues of program infrastructure, stability, and processes, including: instructor recruitment, qualifications, and evaluations; candidate recruitment and support; guidelines for curriculum and clinical practice; assessment and continuous improvement; and program impact.

- **Program Standards** – **Program Standards** address aspects of program quality and effectiveness that apply to each type of educator preparation program. Additionally, the Teacher Performance Expectations are standards that describe expected candidate performance at the level of a beginning teacher. Teacher preparation programs use the TPEs as organizing concepts within preparation coursework, fieldwork, and assessments. Cal Poly reports on the Program Standards, curriculum alignment, clinical practice, instructional faculty qualifications, and other specific program elements of each accredited program during the Program Review Process.

- **Annual Data Reporting** – Each Accredited Program submits an annual data report to the CTC, with data points including: acceptance rates, average GPA, candidate diversity, and program completion rates.

**ACCOUNTABILITY FOR CAL POLY POLICIES**

The Cal Poly School of Education follows all applicable Cal Poly policies, including those related to: admissions, academics, financial aid, diversity and non-discrimination, grievances, graduate education, and student rights and responsibilities.

Many central Cal Poly policies are explicitly referenced in this handbook, but students may find other valuable policies online, including:

- Graduate and Postbaccalaureate Admission Requirements
- Graduate Education Policies & Guidelines
- Graduate Education Continuous Enrollment Policy
- Graduation Writing Requirement
- Title V Requirements For Graduate Culminating Experiences
- Fees & Expenses

- Academic Obligations
- Academic Petitions
- Student Grievances
- Eligibility for Intercollegiate Athletics
- Eligibility for Student Activities
- Student Conduct and Discipline

- Grading Symbols
- Credit/No Credit Grading
- Administrative Grading Symbols
- Repeating a Course
- Withdrawals / Renewal
- Enrollment Policy
- Class Attendance
- Holding of Records
- Enrollment Status
- Maximum Unit Load
- Add/Drop
- Leaves of Absence
- Returning Students
- Intrasystem and Intersystem Enrollment Programs
- Health Screening

**SOE DISPOSITIONS**

**PROFESSIONALISM:**

1.1 Responsibility and Accountability
Acts ethically, responsibly, and with integrity; and is considerate, respectful, punctual, and appropriate in appearance, in conduct, and in all interactions with students, families, mentors, and colleagues. Is creative and self-reliant in finding solutions to problems and managing dilemmas. Is open to constructive feedback from others, manages situations of conflict and their own stress appropriately, and takes responsibility for own actions.

1.2 Creating Positive Climate

Develops curricula and programs that provide equitable access to learning opportunities for each and every student and educator through both content and processes. Promotes a climate in which learning is valued and on-going. Provides choices to enable all to share in and contribute to social and intellectual life. Upholds fair and equitable standards for conduct that encourage responsibility, mutual respect, and civic values, and that safeguard the physical, intellectual, and emotional well-being of each and every student and education professional.

ETHICAL PRACTICE:

2.1 Cross-Cultural Competence

Promotes respect for self, students, families, and cultures. Demonstrates belief that everyone can learn, and values human diversity and equity in the learning environment. Examines own biases and prejudices, and develops necessary awareness, attitudes, knowledge, and skills for effectively and respectfully teaching and mentoring people whose culture differs from their own.

2.2 Collaboration

Actively engages in a community of learners that develops relationships, programs, and projects with colleagues in P-20 schools and educational agencies designed to improve the quality of education for each and every student and education professional. Contributes professionally to the field at local, regional, state, and national levels.

SHAPING CHANGE:

3.1 Inquiry and Innovation

Is prepared to engage in and fosters in others life-long learning, continuous reflection, and research (on own practice or beyond). Creates learning opportunities for themselves and others. Maintains currency with professional knowledge, effective and ethical practices, and scholarship in the field. Tries new methods and tools. Incorporates knowledge-building technologies; critical, creative, and metacognitive thinking; conceptual understanding; independent and interdependent problem solving; and experiential approaches to learning.

3.2 Social Justice

Seeks to understand their own privileges and prejudices, the stereotypes embedded in educational materials, and the cultural bias institutionalized in schools and other education-related organizations. Works toward realizing a nation and world where all have basic human rights and actively seeks to eliminate social, political, and economic inequities. Promotes social and environmental responsibility. Independently and collaboratively identifies opportunities, goals, and avenues for social and organizational development toward excellence and equity. Empowers others to achieve organizational and personal goals.
The application to all Cal Poly SOE accredited credentialing programs is a three-part process:

**University Admissions**
- Candidates apply to Cal Poly using the CSU CalStateApply system
- For admission to Cal Poly, students submit GPA, letters of recommendation, and other mandatory information
- Cal Poly admissions verifies that the prospective student is eligible for admission to the university
- NOTE: Students applying to Master’s Only programs (not seeking a credential) may indicate that they are not submitting any of the teaching related documents requested on the application.

**Program Advisor Review**
- Students have an initial admissions consultation with their Program Advisor/Coordinator or Credential Analyst and may be asked to participate in a Professional Aptitude Interview or video testimonial
- Program Advisors/Coordinators check letters of recommendation, basic skills, subject competency, GPA, and other requirements for the program.
- The Program Advisor makes a recommendation to the Credentialing Office regarding whether admission to the Program should be granted, denied, or conditional

**Credential Office Evaluation**
- Prospective students may be asked to submit supplemental documents to the Credential Office (such as a STEP I application)
- The Credential Analyst performs an evaluation of all requirements for acceptance to the program, including subject matter verification and possession of a bachelor’s degree from an accredited institution
- The Credential Analyst makes final determination whether a candidate shall be accepted, denied, or conditionally accepted

**ACCREDITED DEGREES:** In order to be accepted to a CTC Accredited Credential Programs, candidates must possess a bachelor’s degree from an institution of higher education that was regionally accredited at the time the degree was conferred. The Credential Office will verify that a candidate’s bachelor degree is accredited during the initial evaluation.

**BASIC SKILLS:** In order to be accepted to CTC Accredited Credential Programs, candidates must provide evidence of Basic Skills proficiency. This is generally demonstrated through passage of the CBEST examination, but may also be demonstrated through qualifying ACT or SAT scores.

**SUBJECT MATTER COMPETENCY:** In order to be accepted to CTC Accredited Credential Programs, candidates must provide evidence of subject matter competency.

If a prospective student has not completed subject matter competency, they may demonstrate evidence of having attempted or registered for the subject matter examination, or of making progress toward completion of a Commission approved subject matter preparation program and be granted conditional admission.

Full admission to the program is not awarded until subject matter competency is completed and verified, either through passage of the appropriate subject matter examination or through completion of a Commission approved subject matter preparation program.

**PAIs:** Applicants may be asked to participate in a Professional Aptitude Interview, or to submit a personal video testimonial (depending on the needs of each individual program).

**PROGRAM COURSEWORK**

(1) Program Course Sequence

The table below outlines the current course sequence in the SSTEP program (subject to change):
<table>
<thead>
<tr>
<th>SUMMER QUARTER</th>
<th>FALL QUARTER</th>
<th>WINTER QUARTER</th>
<th>SPRING QUARTER</th>
</tr>
</thead>

<td>EDUC 416 Literacy, Language, and Culture in the Content Areas (3)</td>
<td></td>
</tr>
<tr>
<td>6 units</td>
<td>16-17 units</td>
<td>13 units</td>
<td>14 units</td>
</tr>
</tbody>
</table>

(2) Course Availability & Time to Completion

**CAL POLY POLICY ON CONTINUOUS ENROLLMENT:** Effective Fall Quarter 2009, Cal Poly adopted a Continuous Enrollment policy for all graduate programs. Graduate students are required to maintain continuous enrollment from the time of first enrollment in a graduate program until completion of the degree. Continuous enrollment is defined as being enrolled during fall, winter, and spring quarters each year, unless the student has formally applied for a Leave of Absence, as defined in the University catalog (Medical Leave; Planned Educational Leave).

**COHORT MODEL:** Because the SOE utilizes a cohort model for most programs, courses are typically offered only once per academic year. Candidates are encouraged to follow the Cohort Model as fully as possible in order to expedite the completion of their degree. If needed, certain courses can be taken as an independent study at the discretion of the program faculty and with Program Coordinator approval.

**PART-TIME ENROLLMENT:** Cal Poly SOE programs do not offer a formalized part-time option. In some circumstances, students may request a decelerated path to a master’s degree and/or a credential. This path needs to be determined with the Program Coordinator prior to beginning the program and a suitable course schedule outlined with the approval of the Program Coordinator. Because most courses are only offered once per academic year, once the decelerated program is established, a student must continue with the planned course sequence through completion of the program.

**LEAVES OF ABSENCE:** If students need to take extended absences (e.g., more than 2 weeks) from a program, they will need to formally apply for a Leave of Absence. Cal Poly recognizes Leaves of Absence for reasons related to medical or educational needs. Leave of Absence policies are outlined in the University Catalog.

**TIME TO COMPLETION:** Cal Poly Graduate Education Policy requires that a student shall complete all of the graduate work in the formal study plan within the seven-year period preceding the date when all the requirements for the degree have been met.

**STEP PROGRAM COMPLETION & CREDENTIAL APPLICATION**

Upon completion of the program, candidates are eligible to apply for a recommendation for a preliminary credential. Once candidates apply for a recommendation, the Credential Analysts perform a final check of all requirements and update the Credential Office Evaluation documentation for each student.

For Preliminary Single Subject Credentials, the evaluation might appear similar to the following:
Program Requirements for: *James T Doe*

**SB 3042  Single Subject Mathematics**

PARTICIPATION IN SURVEYS & FEEDBACK

RATIONALE & IMPORTANCE: Across the field of education, a growing number of accreditors and government regulators are requiring demonstration of evidence-based decision making in schools and programs. In addition to these requirements, the SOE is firmly committed to engaging in on-going continuous program improvement and self-reflection. The desire for student and stakeholder voice in these decision-making processes leads to an increasing request for survey feedback.

Well-designed surveys provide important information and insights that cannot be captured by GPAs, completion rates, and direct data alone. Surveys help the SOE to identify the root causes and contexts behind the successes and struggles of our teacher candidates, leading to better education and training for future teachers.

COMMITMENT TO STRATEGIC AND EFFICIENT SURVEYS: The SOE respects and appreciates the time and attention that you put into giving survey feedback. We recognize, however, that carefully crafting and developing survey responses can be laborious and may lead to ‘survey-fatigue’. Thus, we are committed to engaging in strategic, efficient, and purposeful survey efforts.

The Cal Poly School of Education will only request survey feedback that is strategically designed to have an immediate and purposeful impact on our decision making.

Additionally, the SOE may administer surveys at the request of external agencies, including the CTC, Cal Poly, or research groups. The SOE recognizes that these requests are important (and often required as part of our accreditation), but we maintain our commitment to minimize over-surveying and to eliminate surveys might be redundant.

COMMON TYPES OF SURVEYS: Students and stakeholders should expect to receive requests and reminders to respond to the following, highly-important surveys:

- **Quarterly Course Evaluation (Class Climate) Surveys** – Administered through the Class Climate system and overseen by the Cal Poly department of Academic Personnel. Course evaluations provide direct feedback about instructional faculty. Instructors receive all data and comments after grades have been posted each quarter.
- **CTC Exit Survey** – A CTC required survey that graduating students must complete via an online portal when applying for their credential. Cal Poly receives the data from the CTC on an annual basis.
- **CTC/CTQ 1-Year Out Survey (Alumni & Employers)** – A CTC required survey that will be emailed to students 1-Year after they complete their Cal Poly program. This survey asks students to reflect on how the Cal Poly program prepared them for their first year of teaching. A survey is also emailed to the administrator at the school that employs the teacher. Cal Poly receives the data from the CTC on an annual basis.
- **CTC Master Teacher Survey** – A CTC required survey that is sent to any Cooperating Teacher who supervises a student during CPIII. Cal Poly receives the data from the CTC on an annual basis.
- **Alumni Survey** – A Cal Poly survey that tracks the career and employment rates of our alumni.

COLLECTING, STORING & SHARING DATA: The Cal Poly SOE follows all university policies for storing and handling survey and evaluation data. Data that contains respondents’ names, email addresses, or identifying information is only visible to the SOE Director, Assessment Coordinator, and other key staff involved in the survey process. Aggregated data is shared with Program Coordinators, grant coordinators, and instructors for the purpose of analyzing trends and planning trainings and support. Comments may also be shared, although the SOE Staff makes an effort to remove identifying information. Students should always be aware that their comments may be shared and should not disclose any personal information in their comments unless they are comfortable with that information being distributed.
COMMITMENT TO DIVERSITY, INCLUSION & EQUITY

The School of Education is committed to diversity, inclusion, and equity in all its recruitment, admissions, hiring, instructional, and Clinical Practice practices. Our commitment to diversity and inclusion is grounded both in our accountability to CTC and Cal Poly policies, as well as our core principles as educators which call on us to support equity, access, and respect for all learners, and to train future professionals who uphold these principles for the betterment of the field of education, and society at large.

STUDENT RESPONSIBILITIES: Students who enroll in SOE Programs should be prepared to practice diversity, inclusion, and equity consistent with the Cal Poly Diversity Objectives, Statement on Diversity, and Non-Discrimination policy.

Students who enroll in CTC Accredited Programs should be prepared to uphold diversity and demonstrate inclusive and equitable practices in accordance with CTC Program Standards/TPEs, Common Standards, dispositions, and policies, as a requirement for being recommended for a credential.

Some of the ways that candidates may be expected to demonstrate diversity, inclusion, and equity in their coursework and Clinical Practice experiences include:

- Demonstrating and applying knowledge of diverse learners, including: prior experiences, interests, socio-emotional learning needs, funds of knowledge, cultural backgrounds, language, and socioeconomic differences.
- Utilizing student-centered strategies for planning and implementing instructional activities and/or student support programs, including Universal Design of Learning (UDL), Multi-Tiered System of Supports (MTSS), Specially Designed Academic Instruction in English (SDAIE), Social-Emotional Learning, and other research proven practices for differentiation.
- Demonstrating effective professional and inclusive communication skills for engaging diverse students, families, community partners and stakeholders.
- Creating physically, mentally, intellectually, and emotionally healthy and culturally responsive learning experiences and classroom environments.
- Recognizing and appropriately addressing educational and societal inequity, such as harassment, bullying, racism, sexism, heterosexism, and other forms of oppression, as well as supporting students experiencing discrimination, marginalization, trauma, and homelessness.
- Recognizing personal preconceptions and biases and being aware of how those biases may impact professional practice as an educator.
- Understanding and applying theories and principles of diversity, inclusion, and equity in the field of education, including: Culturally Responsive Teaching, Cultural Sustainability, Restorative Practices, the breadth of marginalized communities, Growth Mindset, asset models, and the moral and ethical use of power and privilege.
- Participating in fieldwork and Clinical Practice experiences at diverse school sites that expose the candidate to the wide-range of California diversity, including: race, culture, language, socio-economic, and students receiving Special Education services.

FACULTY & STAFF RESPONSIBILITIES: All Cal Poly employees are required to practice diversity, inclusion, and equity consistent with the Cal Poly Diversity Objectives, Statement on Diversity, and Non-Discrimination policy. The SOE provides faculty and staff with regular professional development and continuous improvement resources around evolving practices in diversity, inclusion and equity. As part of CTC Accreditation, certain faculty and staff in the SOE may be evaluated on demonstrating current knowledge and skills, and on-going learning, in relation to diversity, inclusion, and equity.

ACADEMIC STANDING/DISMISSAL PROCESS

IT IS EXPECTED THAT ALL CAL POLY STUDENTS ARE ENROLLED FOR SERIOUS EDUCATIONAL PURSUIT AND THAT THEY CONDUCT THEMSELVES SO AS TO PRESERVE AN APPROPRIATE ATMOSPHERE OF LEARNING. IT IS ALSO EXPECTED THAT ALL STUDENTS WHO ENROLL AT CAL POLY ARE WILLING TO_ASSUME THE RESPONSIBILITIES OF CITIZENSHIP IN THE CAMPUS COMMUNITY. ASSOCIATION IN SUCH A COMMUNITY IS VOLUNTARY, AND STUDENTS MAY WITHDRAW FROM THEIR GRADUATE PROGRAMS ANY TIME THEY CONSIDER THE OBLIGATIONS OF MEMBERSHIP DISPROPORTIONATE TO THE BENEFITS. WHILE ENROLLED, STUDENTS ARE SUBJECT TO CAMPUS AUTHORITY THAT INCLUDES THE PREROGATIVE OF DISMISSING THOSE WHOSE CONDUCT IS INIMICAL TO THE AIMS OF AN INSTITUTION OF HIGHER EDUCATION. WHILE ENROLLED, STUDENTS ARE SUBJECT TO THE REGULATIONS GOVERNING DISCIPLINE STATED IN EDUCATION CODE SECTION 66017 AND IN TITLE 5 OF THE CALIFORNIA CODE OF REGULATIONS, SECTIONS 41301–41302, AND TO SUCH RULES AND REGULATIONS AS HAVE BEEN APPROVED AND PROMULGATED BY AUTHORITY OF THE UNIVERSITY PRESIDENT.
Incomplete (Authorized): An Incomplete signifies that a portion of required coursework has not been completed and evaluated in the prescribed time period due to unforeseen but fully justified reasons and that there is still a possibility of earning credit. It is the student's responsibility to bring pertinent information to the instructor who determines the means by which the remaining course requirements are satisfied. A final grade is assigned when the work agreed upon has been completed and evaluated. The student is not permitted to re-enroll in the course to complete course requirements. If the student does re-enroll, the original grade of I is counted as an F (or NC) and the re-enrollment is processed as a repeated course.

The instructor designates terms of the contract and length of time allowed to complete work, not to exceed one year. Failure to complete the assigned work results in being counted as equivalent to an F (or NC) for grade point average computation. All remaining grades of I are changed to F (or NC) at the time the student's degree is awarded.

Report in Progress (RP) Grades: The grade of RP is used in connection with courses that extend beyond one academic term. It indicates that work is in progress and has been evaluated and found to be satisfactory to date, but that assignment of a grade must await completion of additional work. Work is to be completed within a time period stipulated by the instructor. The RP symbol shall be replaced with the appropriate final grade within one year for all courses or will convert to an F for graded courses or NC for CR/NC-only courses.

There is an exception for graduate degree theses or project courses (539/596/598/599) for which the time may be up to seven years, but may not exceed the overall time limit for completion of all Master's degree requirements (AS-647-06). Failure to complete the assigned culminating experience work will result in the RP, only in these courses, being converted to an NC (AS-443-95).

Earned D+ or Lower: If a student earns a D+ or lower, the course can be retaken with the permission of the student's program and both grades will be averaged into the Formal Study Plan. Alternately, if the course is not required, it can be removed from the Formal Study Plan and replaced with a suitable alternative.

Repeating a Course: Students may enroll in a course for credit more than once only if the catalog course description states that the course may be repeated for credit. An exception to this policy allows the repeating of a course in cases where a grade of D or F was received. Unlike the undergraduate policy at Cal Poly, a graduate student repeating a course cannot qualify for the removal of a lower letter grade from the overall GPA calculation on the student's transcript. See the Earned D+ or Lower section above for more information.

Credit/No Credit Grading: Courses which are offered only on a credit/no credit basis also satisfy the unit requirement if a credit grade is earned. The equivalent of an A or a B (including a B-) is required to earn credit in such courses (AS-647-06). Graduate students may elect to take courses that are not part of their Formal Study Plan on a credit/no credit basis.

A student who is enrolled in a graduate degree program in conditionally classified or classified standing may be placed on academic probation for failure to maintain a cumulative grade point average of at least 3.0 (grade of B on a scale where A = 4.0) in all courses in the Formal Study Plan for the degree.

A student who has been admitted as post baccalaureate classified in order to pursue a [CTC accredited] credential program shall be subject to academic probation for failure to maintain a cumulative grade point average of at least 3.0 in all units taken in the credential program.

School of Education Conditions for Removal of Academic Probation: A student will be removed from academic probation when their cumulative GPA meets the minimum requirement for the program in which they are enrolled. In addition, while on academic probation, a student is expected to maintain a minimum quarterly GPA of 3.0. If a student who has been placed on academic probation earns a GPA below 3.0 in a quarter, and their cumulative GPA does not meet the program minimum requirement, they may be subject to academic disqualification.

Academic Disqualification:

A graduate or post baccalaureate student who has been placed on academic probation may be disqualified from further attendance in a program by action of the Dean of the College (or the Dean's designate) in which the student is enrolled and in consultation with the Dean of Graduate Education for any of the following reasons:

- The conditions for removal of academic probation are not met within the period specified.
- The student goes on administrative probation while on academic probation.
- The student is subject to administrative probation for the same or similar reason for which the student has been placed on academic probation previously, although not currently in such status.
When such action is taken, the student is notified via email from the Dean of Graduate Education that includes an explanation of the basis for the action. Disqualification may be either from further registration in the program or from further enrollment at the University as determined by the Dean of Graduate Education.

---

(4) Administrative Probation

A graduate student may be placed on administrative-academic probation by action of the Dean of the College (or the Dean’s designate) in which the student is enrolled for any of the following reasons:

1. Withdrawal from all or a substantial portion of a program of study in two successive quarters or in any three quarters. (Note: a student who is on an approved Leave of Absence is not subject to administrative-academic probation for such withdrawal.)
2. Repeated failure to make progress toward the stated degree or program objective when such failure appears to be due to circumstances within the control of the student.
3. Failure to comply, after due notice, with an academic requirement or regulation which is routine for all students or a defined group of students (for example, failure to complete a required campus or program examination, failure to complete a required practicum, failure to complete a required internship, failure to comply with professional standards appropriate to the field of study, failure to make satisfactory progress in the academic program, etc.).

When such action is taken, students are notified via email and are provided with the conditions for removal from probation and the circumstances that would lead to disqualification, should probation not be removed.

---

(5) Administrative Disqualification

A graduate student who has been placed on administrative probation may be disqualified from further attendance in a program by action of the Dean of the College (or the Dean’s designate) in which the student is enrolled and in consultation with the Dean of Graduate Education for any of the following reasons:

1. The conditions for removal of administrative probation are not met within the period specified.
2. The student goes on academic probation while on administrative probation.
3. The student is subject to administrative probation for the same or similar reason for which the student has been placed on academic probation previously, although not currently in such status.

When such action is taken, the student is notified via email from the Dean of Graduate Education that includes an explanation of the basis for the action. Disqualification may be either from further registration in the program or from further enrollment at the University as determined by the Dean of Graduate Education.

---

(6) Removing a Teacher Candidate from a School of Education Program

The following steps describe the formal process used in the School of Education to address situations in which there are concerns about a student’s progress in fulfilling expectations in a program. The end result of following the complete process is the removal of a student from a School of Education Program.

- When a concern is identified regarding a student in a School of Education program (e.g., low GPA, disposition concern, etc.), the coordinator of the appropriate program will be notified in writing. This notification may come from a faculty member, cooperating teacher/fieldwork mentor, site administrator, or other responsible party.
- Once written notification is received by the program coordinator, they will conduct an investigation of the concern. This may include, but is not limited to, calling a meeting to discuss the issue with faculty, the student, or other parties as deemed appropriate by the coordinator.
- If it is determined to be a valid concern, a meeting will be held to discuss the concern, corresponding actions to be taken, and timeline. After this meeting, the coordinator will send a Letter of Concern to the student that summarizes the meeting, and a copy of the letter will be given to the Director of the School of Education. If the student is a credential candidate, a copy will also be given to the credential office. The letter will include the following:
  - Statement of the concern
  - Actions to be taken to address the concern
  - Timeline for completing actions
  - Possible outcomes
    - Continuance in program
    - Additional action to be taken
    - Dismissal from program
- The student will be invited to submit a written response to the Letter of Concern within one week of receiving the Letter of Concern. If a student chooses not to submit a written response, the process continues as outlined in the Letter of Concern.
• If the Letter of Concern stated that additional action needed to be taken according to the timeline established, an action plan status meeting will be held, and a decision will be made by the program coordinator regarding continuance (if the student met actional items and the issue has been resolved) or dismissal. This decision will be put in writing for the student and the Director of the School of Education. If the student is a credential candidate, a copy will also be given to the credential office.
• At all steps in the process, the student will be notified that they can appeal the decision to the Director of the School of Education. If the student submits a written appeal to the Director of the School of Education, the Director of the School of Education will review all written documentation. The Director of the School of Education will schedule a meeting with the student and the coordinator to discuss the issue. The Director of the School of Education may also request to speak with others who have knowledge of the situation.
• Upon reviewing the evidence and speaking with the parties involved, the Director of the School of Education will determine retention or removal. This decision will be given in writing to the student and the coordinator. If the student is a credential candidate, a copy will also be given to the credential office.

STUDENT GRIEVANCE PROCESS

SOE GRIEVANCE PROCESS: The SOE offers students a variety of opportunities to share feedback and address concerns about the SOE, its programs, and the Clinical Practice experience. The SOE Student Grievance process is designed to support and empower students to resolve issues within the unit, before triggering a full Cal Poly grievance process. If the SOE Student Grievance process does not resolve an issue, students are encouraged to utilize the campus resources under the Cal Poly Student Grievance process. (Amended 2017-2018)

• General Feedback – Students in the School of Education are given regular opportunity to share concerns through quarterly Climate Surveys and evaluations. These surveys and evaluations are an opportunity to provide feedback to the SOE for the purpose of improving elements of our programs. They are not designed to address time sensitive issues or individual student-instructor relationships. Students should be aware that every attempt is made to protect their anonymity, however the entirety of comments and feedback provided in these surveys and evaluations may be shared with SOE faculty and staff.
• Academic/Grade/Dismissal Grievances – Students are encouraged to discuss academic, grading, and dismissal related issues with the appropriate Program Coordinator. If the Coordinator is unable to resolve the grievance, students may appeal to the SOE Director (see below).
• Clinical Practice Experience Grievances - Students with concerns about the Clinical Practice experience (such as cooperating teacher or university supervisor placements) are encouraged to direct those concerns in writing to the Clinical Practice Coordinator. The Clinical Practice Coordinator will record and monitor the recurrence of concerns, communicate with Program Coordinators and Clinical Practice personnel, and facilitate in determining if urgent issues require immediate resolution. If the Clinical Practice Coordinator is unable to resolve the grievance, students may appeal to the SOE Director (see below).
• **Appeal to the SOE Director** – Any concerns or grievances that cannot be addressed within the programs may be appealed to the SOE Director in writing. The SOE Director will review the appeal request, schedule meetings as appropriate, and provide a written response with the final determination of the unit. Student meetings with the SOE Director should **not** be scheduled without first submitting a written request for an appeal.

**CAL POLY GRIEVANCE PROCESS**: The University provides students with a variety of mechanisms to address student grievances or concerns. In all such matters, the University encourages students to attempt to resolve their grievances or concerns at the source of the issue (i.e., with the professor, department chair or administrator, or college associate dean). The Office of Student Rights and Responsibilities, at 805.756.2794 is available to any campus community member to assist with identifying and clarifying appropriate campus policies and procedures for addressing student grievances or concerns. For general questions about grievances, contact the Office of Student Rights and Responsibilities, at 805.756.2794. The following list contains the offices or programs designated to address the more common student grievances at the University:

- **Grade Grievances** – The Fairness Board: Contact the Academic Senate Office, 805.756.1258 (See University Policies [http://catalog.calpoly.edu/universitypolicies](http://catalog.calpoly.edu/universitypolicies) page for more detail on the functions of this Board)
- **Individual Student Misconduct** – Office of Student Rights and Responsibilities, 805.756.2794 (See Student Affairs [http://catalog.calpoly.edu/academicsupportandcampuslife/studentaffairs](http://catalog.calpoly.edu/academicsupportandcampuslife/studentaffairs) page for more detail on the functions of this office)
- **Student Club Misconduct** – Office of Student Rights and Responsibilities, 805.756.2794 (See Student Affairs [http://catalog.calpoly.edu/academicsupportandcampuslife/studentaffairs](http://catalog.calpoly.edu/academicsupportandcampuslife/studentaffairs) page for more detail on the functions of this office)

**STUDENT RECORDS & PRIVACY**

The Cal Poly School of Education protects student privacy in accordance with federally mandated FERPA guidelines and Cal Poly records management and information security policies.

Some student information must be shared with partner school districts and the California Commission on Teacher Credentialing in order to maintain our accreditation and secure Clinical Practice placements for candidates.

Cal Poly students and graduates have access to their official academic records and transcripts through the office of the Cal Poly Registrar. Students and graduates can also view their unofficial academic records and progress through the online My Poly Portal system.

Students have access to view their credentialing records (such as submitted supplemental documents, credential evaluations, and program completion) through visit or request to the Cal Poly SOE Credentialing Office. **The Credential Office is unable to provide students with photocopies of submitted documents (such as transcripts, TB tests, or other records). Students should be sure to maintain copies of all materials for their own records.**

The SOE Credentialing office maintains additional digital records and checklists for all students in the MS/SS programs, which are stored in a database server in Cal Poly’s secure data center.

The SOE Credentialing office maintains physical records and checklists for all credential candidates in accredited programs. These physical records are kept on file in the Credential Office during enrollment. Upon program completion, the files are moved to a secure file room in locked filing cabinets with access limited to Credential Office staff. Credentialing files are shredded after 7 years of inactivity.
The Cal Poly School of Education participates in numerous grant funded research projects to learn more about the experiences of cooperating teachers, teacher candidates, university supervisors, and faculty in School of Education (SOE) programs, placements and/or professional development events. The purpose of these studies is to evaluate the effectiveness and impact of ongoing reforms and continuous improvement on credential program stakeholders and district partners (SOE faculty, university supervisors, teacher candidates, cooperating teachers + administrators, and K-12 student learners). You are a possible participant in these studies because you are enrolled in or working with one of the programs in the study.

All SOE candidates who may be included in the study are asked to sign a consent to participate in research.

Your decision whether or not to participate will not prejudice your relations with Cal Poly, San Luis Obispo. You are free to withdraw your consent and to discontinue your participation at any time without penalty. You also do not have to answer any questions you chose not to answer. The Human Subjects Committee at Cal Poly has reviewed and approved this research.

If you have questions regarding grant research in the SOE, please contact Dr. Megan Guise at meguiise@calpoly.edu, or the Grants Manager, Sarah Hegg, at shegg@calpoly.edu, (805) 756-7492.
III. CLINICAL PRACTICE HANDBOOK

The next section of the handbook describes a key feature of the SSTEP Program referred to as clinical practice. This feature has been bolstered in our credential program and is in part a response to a report by NCATE (National Council for Accreditation of Teacher Education), a national accrediting body for pre-service teacher education, that called for clinically-based teacher preparation programs. This language of “clinical practice” is used to signal that the fieldwork in teacher preparation programs is akin to work in hospitals and clinics that is part of the preparation of medical students to be a doctor. In hand with that, the Single Subject Teacher Preparation Program shifted its coursework to even more strongly base teacher candidates’ learning in school classrooms. The intent of these learning experiences is to enable teacher candidates to learn about learning, teaching, and schooling in the context of its actual practice – secondary schools.

Clinical Practice Narrative

THEORETICAL APPROACH: Clinical Practice experiences in the Cal Poly School of Education are deeply grounded in Learn by Doing; future educators work alongside experts in the field to hone their craft through a gradual release of responsibility. This Learn by Doing approach embeds Cal Poly’s innovative polytechnic approach to higher education with best practices and theories in education by building a Community of Practice that emphasizes continuous improvement and a culture of shared learning.

In order to build a successful Learn by Doing Clinical Practice program, great care and thought goes into articulating all facets of the clinical experience, including: roles, coaching, language, and the supports that are leveraged at each phase of field experience. By intentionally articulating shared principles and values throughout Clinical Practice, the SOE builds meaningful connections between the Cal Poly campus and the field.

In the SOE, Clinical Practice roles and responsibilities are expressed through The Triad, a designed collaboration between the teacher candidate, cooperating teacher, and university supervisor. Each member of the Triad participates in learning experiences that help to create a Community of Practice based on shared language, best practices, and theories. This ensures that the strategies, coaching, and evaluation that teacher candidates experience in the field are consistent with the theories and language promoted in SOE coursework.

The Cal Poly School of Education further advances a shared vision of effective teaching and learning through the Teacher Education Observation Rubric, which articulates 17 Prioritized Skills at the center of effective teaching practice. While future educators study the theories and best practices behind these Prioritized Skills in their coursework, the SOE offers workshops and professional development resources for cooperating teachers, school site administrators, and our surrounding community in order to norm our collective understanding of the Observation Rubric, and to encourage common language. By developing shared expectations and norms grounded in the Observation Rubric, we tighten the relationship between the School of Education and fieldwork sites, creating a more coherent experience for our teacher candidates. Fostering this shared vision of teaching and learning also serves to demystify effective teaching practice and reveals a transparent development path for teacher candidates as they uncover and honor their own craft as future master teachers.

The final linchpin in Cal Poly’s approach to Clinical Practice is building a community and experience that encourages continuous growth and improvement, along with the risk-taking that is inherent in that process. The Learn by Doing approach requires future educators, and the experts with whom they work alongside, to be open to new ideas, implement innovative strategies, assess, and reflect on resulting successes and inevitable failures. Developing these practices requires vulnerability, willingness to change, and the ability to own missteps. By encouraging these habits, however, the SOE ensures that future educators will be prepared for advanced studies in education, action research, and a commitment to continuous growth that will improve their practice and the outcomes of their students throughout their careers.

COTEAHING: A key component of effective clinical practice is understanding that a teacher candidate and a cooperating teacher are engaged in coteaching. That is, they are both working to further the growth, development, and learning of a classroom of children. As such, the nature of their relationship is key to how well they engage in coteaching. Close communication is needed to determine how they will each contribute to the running of the classroom and the conduct of instruction. In a well-developed coteaching relationship, the teacher candidate and cooperating teacher work together daily in lesson planning, conducting instruction, and evaluating student learning from assessments. There are a variety of specific instructional strategies that have been defined to assist cooperating teachers and their teacher candidates in identifying ways they can choose to work together during classroom instruction. Examples are: One Teach, One Observe; One Teach, One Assist; and Station Teaching. Further information about coteaching strategies and coteaching as a concept are provided by the program via other documents and workshops.

The Triad in Clinical Practice (The Team)

The SSTEP program approaches clinical practice as a team effort that encompasses the teacher candidate, cooperating teacher, university supervisor, university faculty as well as the school site, Program Coordinator, and SSTEP Placement Coordinator. Each member of the team has a vital role to create the best possible clinical practice experience. The roles and responsibilities of each member are described below.

TEACHER CANDIDATE RESPONSIBILITIES

Below are items for teacher candidates to attend to prior to clinical practice but after they have met all prerequisite requirements.

24
Professionalism:

- **Ascertain the general dress standards** prevailing for teachers in his/her clinical practice situation and conform to these. It is important that teacher candidates be viewed as professionals, and appropriate dress is certainly one contributing factor.
- **Social Media:** It is important that teacher candidates are aware that their accounts on Facebook, Twitter, or any other social media website are not private. Others can access these accounts. With this in mind, it is vital to consider what teacher candidates are posting on social media. Teacher candidate posts can potentially have them removed from their clinical placement, the SSTEP program, and possibly affect their teaching career.

Teaching and Planning:

- **Develop lesson plans and units of instruction** that mesh appropriately with the curriculum of the cooperating teacher and the school district.
- **Prepare and promptly deliver all written plans and reports** as stipulated by cooperating teacher, university supervisor, and other appropriate persons.
- **Treat information learned about students and parents** in the course of this assignment as confidential knowledge, except when it is the legal responsibility of the teacher candidate to do otherwise. Respect the confidentiality of pupil information by not disclosing personally identifiable information to anyone not directly involved with the pupil or school. If questions occur, teacher candidates may consult with the cooperating teacher, university supervisor, and/or the seminar instructor. If necessary, consult with the Single Subject Coordinator and the school-site principal.

Assignments and Assessments:

- **Follow the guidelines** provided to teacher candidates about the requirements and recommendations for each activity during the quarter in which they are in clinical practice.
- **Professionally receive and act upon constructive feedback** offered by the cooperating teacher and the university supervisor during SSTEP clinical practice observations and assessment.
- **Be familiar with and actively involved in the teacher candidate assessment process.**
- **Be responsible for carrying out the legal responsibilities** of classroom teachers when and if teacher candidates assume substitute-teaching responsibility in their assignments (i.e., confidentiality, child abuse, etc.), pursuant to California Penal Code Section 11166.5.
- **Make known** to the Clinical Practice Coordinator, Program Coordinator, and/or cooperating teacher special disability needs the teacher candidate has prior to the time of their placement if special on-site accommodations are required.
- **Use PolyLearn or Lime** to input required assignments and an evaluation of the clinical practice experience.

**COOPERATING TEACHER RESPONSIBILITIES**

Cooperating teachers must hold a Clear Credential and have a minimum of three years of content area K-12 teaching experience. In addition, the cooperating teacher must have demonstrated exemplary teaching practices as determined by their district and Cal Poly SOE.

The cooperating teacher plays a very important role during clinical practice, serving as teacher educator, resource person, role model, helper, critic, confidante, collaborator, and learner. At the same time, however, the cooperating teacher bears primary responsibility to his/her secondary students. Their learning must be a top priority at all times.

During the clinical practice, the cooperating teacher, in consultation with the university supervisor, is responsible for providing the teacher candidate with the best possible learning experiences. To accomplish this, the cooperating teacher will have the following major responsibilities as well as others that may be appropriate in specific situations:

- **When possible, meet with the teacher candidate prior to the beginning of the clinical practice experience to provide initial orientation to the classroom and the experience. The site principal, or their designee, will also provide input during this pre-clinical practice orientation phase.**
- **Provide opportunities for the teacher candidate to function as a professional colleague during clinical practice and encourage the teacher candidate to become involved in professional organizations and to participate in other professional growth opportunities, such as school district workshops.**
- **Develop a week-by-week and quarter-long plan with the teacher candidate so that the teacher candidate may correlate his/her planning with the cooperating teacher’s long-range plans while meeting all requirements of the clinical practice experience.**
- **Assist the teacher candidate in refining and developing skills related to subject-matter teaching.**
- **Provide consistent/ongoing collaboration and supervision while phasing the teacher candidate into coplanning, coconstructing, and coassessing:**
  - Confer freely and often with the teacher candidate;
• Work with the university supervisor to help the teacher candidate develop appropriate professional improvement goals;
• Support the use of technology, social-emotional learning, and other strategies that the teacher candidate is learning in their coursework;
• Participate in shared professional development, reflection, and online learning modules to develop common language and shared approaches to the classroom
• Inform the university supervisor when the teacher candidate encounters serious problems as soon as such problems are identified.
• Meet with university supervisors as requested.
• Help the teacher candidate carry out specific teacher responsibilities.
• Continue to model new types of lessons for the teacher candidate throughout the quarter.
• Use Lime to provide feedback on the university supervisor and program.

SCHOOL DISTRICT AND SCHOOL SITE RESPONSIBILITIES
The districts and the school sites are responsible for providing a supportive environment for the teacher candidate. Examples of district/site responsibilities are outlined below, and several are contingent upon students being placed in a timely way:

• The principal is encouraged to participate in the orientation process that helps to introduce the teacher candidate to the unique education environment at the school site.
• The teacher candidate will meet with the site principal or designee prior to beginning the clinical practice assignment. The principal or designee will provide specific information related to school rules, discipline policies, curriculum, school map, district map, location of support personnel, materials, and will provide a general introduction to the school.
• The site principal or designee will provide information related to district policies, salary schedules, professional associations operating within the school district, professional responsibilities associated with the teaching profession, and the legal implications thereof.
• The site principal may be asked to observe teacher candidates by the cooperating teacher and/or university supervisor.
• The school district and the Clinical Practice Coordinator will strive to make the selection of cooperating teachers and placement of teacher candidates in a timely fashion.

UNIVERSITY SUPERVISOR RESPONSIBILITIES
The university supervisor is a key member of the supervisory team, with responsibilities that are similar, but also somewhat different, from those of the cooperating teacher. The university supervisor is the primary evaluator. In consultation with the cooperating teacher, it is the university supervisor who determines the grade that the teacher candidate receives. Selected important responsibilities for the university supervisor follow:

• Plays a coordinating and informing role during the orientation sessions provided for his/her teacher candidates and cooperating teachers.
• Handles requests for absence from clinical practicum not due to illness and approves decisions regarding make-up work. Helps the teacher candidate and cooperating teacher develop a plan for make-up work.
• Works collaboratively with the cooperating teacher to orient the teacher candidate to the supervision evaluation cycle employed during Clinical Practice I, II, and III.
• Cooperatively supervises the teacher candidate with the cooperating teacher. The cooperating teacher will, as the day-to-day on-site teacher educator, carry the major responsibility for classroom guidance, observation, and supervision of the teacher candidate.
• Visits, observes, conducts instructional conferences, and cooperatively supervises the teacher candidate. This includes a minimum of twelve observations and the Induction Transition Plan.
• Reviews with the teacher candidate the criteria used to evaluate performance and the evaluation process outlined in this handbook.
• Uses Lime to submit summative evaluation for the teacher candidate.
• Submits grades by the grading deadline via procedures defined by Academic Records; the SOE Credential Office will also have this information.
• Attends staff development meetings scheduled for the team of university supervisors.
• Completes a feedback form for each cooperating teacher working with assigned teacher candidates.

SSTEP Clinical Practice Structure & Coursework
Teacher candidates participate in a yearlong clinical practice at one school site (middle or high school) in their discipline. The clinical practice includes 4 different phases (see below) with involvement in the classroom increasing as involvement in Cal Poly coursework decreases.
CPI - Early Start (Start of School Year – Week Before Start of Fall Quarter):

- At school site Monday-Thursday half day
  - Primarily teacher candidates are getting to know students, observing, and assisting
  - Teacher candidates meet with key personnel (e.g., special needs instructor, ELD teacher, school counselor, administrator) in order to familiarize themselves with their school site
- Attend August cooperating teacher & teacher candidate workshop
- Teacher candidates reflect weekly via an online program reflection
- Enrolled in EDUC 410 & EDUC 418
- University supervisor visits pair once to check in and support coteaching (focus is on building a collaborative relationship & understanding expectations for CPI

CPI - Practicum (Start of Fall Quarter – School’s Winter Break):

- At school site all day Tuesday/Thursday
  - Activities for teacher candidates can include the following: (a) assisting the classroom teacher with small tasks such as monitoring participation and student work, distributing and collecting papers, etc.; (b) meeting with individual or small groups of students for the purposes of tutoring and assisting with classroom work and homework; (c) observing with a focus on a particular skill (e.g., formative assessments, facilitating group work, questioning, classroom management, etc.); and/or (d) team teaching a lesson but not planning the lesson.
  - The teacher candidate is not responsible for planning or grading during CPI
- Teacher candidates reflect weekly via an online program reflection
- Enrolled in EDUC 412, 414, & methods
- University supervisor observes 4 times, according to the sequence on the Teacher Education Observation Protocols, and submits data to Cal Poly
- 3 absences & 3 days of substitute teaching for teacher candidate’s cooperating teacher allotted for CPI

CPII - Part-Time Clinical Practice (January – Cal Poly’s Spring Break):

- At school site half days (two classes and one planning period) Monday – Friday
  - Responsible for coplanning, coconstructing, and coassessing
- Teacher candidates reflect weekly via an online program reflection
- Plan and teach edTPA learning segment
- Enrolled in EDUC 416 & seminar
- University supervisor observes 4 times, according to the sequence on the Teacher Education Observation Protocol, and submits data to Cal Poly
- University supervisor facilitates goal-setting discussion and initial draft of Induction Transition Plan
- 3 absences & 5 days of substitute teaching for teacher candidate’s cooperating teacher allotted for CPI

CPIII - Full-Time Clinical Practice (April – End of School Year):

- At school site all day every day
  - Not necessarily lead teaching every period but involved in every period
  - Coplanning, coconstructing, & coassessing still occurring with intentional solo time built in
- Teacher candidates reflect weekly via an online program reflection
- Submit edTPA during this quarter
- Enrolled in seminar

For the 20/21 cohort, teacher candidates will be enrolled in EDUC 410 & 418 for early start, but they will not begin their clinical practice placement until the start of Cal Poly’s fall quarter.

For the 20/21 cohort, a revised observation protocol will be utilized that is conducive to observing online teaching.
University supervisor observes 4 times, according to the sequence on the Teacher Education Observation Protocol, and submits data to Cal Poly.

University supervisor facilitates discussion and completion of Induction Transition Plan. Final version submitted to Cal Poly.

3 absences & 10 days of substitute teaching for teacher candidate’s cooperating teacher allotted for CPIII

KEYS TO SUCCESS IN CLINICAL PRACTICE

Teacher candidates should maximize communication with the cooperating teacher, university supervisor, and your instructors on campus. Clinical practice provides the richest opportunities for learning to teach, and maintaining an open line of communication is necessary to fully realize these opportunities. If the teacher candidate is unsure about a situation, they should talk openly with their support team. If the situation is “complicated,” the Program Coordinator can also be involved.

Cooperating teachers are looking for a commitment to teaching. When possible, arriving early, leaving later, finishing an assignment, and not clock-watching are behaviors that let those who have a responsibility to evaluate you know that you are committed to becoming a teacher. Part of being professional stems from your ability to be conscientious and sensitive in your dealings with students, school staff, cooperating teachers, parents, and Cal Poly faculty and staff. So, do not disclose confidential or personal information about your students, university supervisor, cooperating teacher, or other education professionals to others outside of those who “need to know.”

Your success in your teacher credential program often depends on your attitude and performance more than any other factors. The students will look to you as a model and take cues from you by the way you talk, act, and dress. It is also important to remember these “keys to success”:

a. There are many ways to teach, so keep an open mind, and you will learn much.

b. Try to understand people for who they are and what they are trying to do.

c. Try to generate energy and vitality in the people around you with your enthusiasm.

d. Start the day right – it can change the day and open doors for you.

e. Smile often – it can change the day and open doors for you.

f. Make the most of every experience; each one is a chance to learn and ask questions.

g. Show concern in everything you do.

h. Be someone who can be counted on.

Also remember that being negative, grouchy, and angry may generate the same in the children and adults around you. When things seem bad, complaining tends to make them sound worse. With the right attitude and support, most challenging situations can be improved.

SSTEP TEACHER CANDIDATE ASSESSMENT

Assessments for teacher candidates in the SSTEP Program are intended to ensure that teacher candidates have the knowledge, skills, and dispositions needed to successfully begin their career as teachers. Every teacher candidate is mentored by a cooperating teacher, observed and evaluated by a university supervisor, and ultimately participates in a standardized Teaching Performance Assessment. These assessments are particularly useful in monitoring teacher candidate progress through the clinical practice components of the program.

California Teaching Performance Expectations (TPEs)

Adopted, June 2016

1. Engaging and Supporting All Students in Learning
2. Creating and Maintaining Effective Environments for Student Learning
3. Understanding and Organizing Subject Matter for Student Learning
4. Planning Instruction and Designing Learning Experiences for All Students
5. Assessing Student Learning
6. Developing as a Professional Educator

(2) SOE Clinical Practice Observations & Assessments

During each quarter of Clinical Practice, university supervisors observe and evaluate candidates at least four times, following the sequence described on the Teacher Education Observation Protocol. The university supervisor provides feedback, aligned to the TPEs, by collecting evidence on the Teacher Education Observation Evaluation Form (Formative OR Summative) and scoring the teacher candidate according to the criteria on the Teacher Education Observation Rubric. The Observation Protocol, Observation Evaluation Form, and Observation Rubric are updated on an annual basis, following feedback and input from university supervisors, cooperating teachers, and teacher candidates. The most up-to-date versions of these Observation Documents are available on the SOE Website, under ‘Resources’ for ‘SSTEP Candidates’.

In addition to the four observations and feedback on the Observation Evaluation Form, university supervisors also evaluate CPI Candidates on the SOE Professional Disposition Evaluation, and work with CPII and CPIII candidates to develop professional growth goals and an Teacher Education Induction Transition Plan

(3) Learning Modules

The SOE has designed digital learning modules to reinforce the prioritized skills emphasized in the Observation Rubric. The modules are intended to be completed in the field by the Clinical Practice Triad (teacher candidate, cooperating teacher, and supervisor). Although some modules are assigned to specific classes within each program, all the modules can be used on an as-needed basis for independent learning and developing stronger teaching practices.

Current Learning Modules are available online at: https://soe.calpoly.edu/pslm

- Module 1 – Creating an Environment of Respect & Rapport
- Module 2 – Managing Classroom Procedures & Routines
- Module 3 – Managing Student Behavior
- Module 4 – Using Assessment in Instruction
- Module 5 – Using Questioning & Discussion Techniques
- Module 6 – Supporting Emergent Bilingual Students
- Module 7 – Supporting Students with Disabilities

(4) Grades in Clinical Practice Courses

Clinical practice fieldwork courses (EDUC 460, 469, 479) involve evaluation using specific assessments determined by the program, and these will provide the basis for specific feedback on a teacher candidate’s progress. Teacher candidates receive a grade of credit (CR) or no credit (NC) in these courses, with “credit” indicating satisfactory completion of the required work and satisfactory progress in development as a teacher for that term. Grades of “credit” are required in order to progress from one term of clinical practice to the next. To be eligible for recommendation for a Preliminary Single Subject Credential, teacher candidates must receive a grade of “credit” in EDUC 479 (Clinical Practice III) and 425 (Clinical Practice Seminar III).

On occasion, a candidate may struggle to be successful and may not be making sufficient progress to complete the expected amount of take-over of instruction in a classroom. If agreed upon by the university supervisor, cooperating teacher, and Program Coordinator, a grade of “incomplete” can be given and a teacher candidate can be allowed to repeat the term. University policy regarding incompletes will be followed in these cases. In cases when a teacher candidate is not able to be successful in the expected fieldwork and further options are not deemed appropriate, a grade of “No Credit” may be given. The following steps will occur:

1. No later than one week prior to the final conference, the university supervisor will notify the teacher candidate that they will receive a grade of “no credit.”
2. At the same time, the university supervisor will provide the Program Coordinator with documentation of the circumstances that resulted in the grade of “no credit.”
3. The university supervisor will also submit to the Program Coordinator a written recommendation concerning the teacher candidate’s continuation in the SSTEP program. This recommendation should specify one of the following options for the teacher candidate:
   a. Repeat the clinical practice experience in the quarter immediately following the quarter in which the “no credit” was earned;
   b. Engage in corrective learning experiences prior to reentry into clinical practice -- these experiences and the quarter of reentry are to be agreed upon by the university supervisor and the Program Coordinator and put in writing;
   c. Have them removed from the program.
4. If the university supervisor recommends reentry and the Program Coordinator concurs, the recommendation will be forwarded to the School of Education Director. If the Director agrees, the teacher candidate will be reassigned in accordance with the recommendation for a decision. If not, the process is spelled out in the School of Education Policy on Removal of a Student.

SSPEP Program Handbook 2020-2021 (Last updated August 31, 2020)
5. If the university supervisor recommends reentry and the Program Coordinator does not concur, the matter will be referred to the Single Subject Credential Committee, which will make a recommendation to the School of Education Director via the Program Coordinator. The Director will then determine whether the teacher candidate should be reassigned or removed from the program.

6. If the university supervisor recommends that the teacher candidate be removed from the program, the *School of Education Policy on Removal of a Student* will be followed.

**NOTE:** All recommendations endorsed or denied by the Program Coordinator or SOE Director will be forwarded to the SOE Credential Office for placement in the teacher candidate’s file.
CLINICAL PRACTICE PLACEMENTS

PROCESS FOR ASSIGNING PLACEMENTS: Candidates may NOT make their own Clinical Practice placement arrangements. The Clinical Practice Coordinator, with the guidance and input of the Program Coordinator and faculty, will place teacher candidates in their Clinical Practice assignments. Placing teacher candidates in schools is an extremely important task that requires the utmost in professionalism. Therefore, the Clinical Practice Coordinator and Program Coordinator are responsible for collaborating with districts and school sites to negotiate appropriate placements for teacher candidates. Teacher candidates are not to ask specific school administrators or teachers to request a special placement.

Clinical Practice assignments are arranged in school districts that have a current Memorandum of Understanding agreement with the School of Education. School placements are typically located between San Miguel and Lompoc; teacher candidates should expect to drive between 30 minutes and 1 hour to their school sites and should plan their schedules with these commute times in mind.

REQUESTING SPECIAL CIRCUMSTANCES: Candidates may request special Clinical Practice placement assignments for significant reasons, such as a medical or physical limitation. For these requests, written documentation is required.

REQUESTING CHANGE OF PLACEMENT: Students with concerns about the Clinical Practice experience (such as cooperating teacher or university supervisor placements) are encouraged to direct those concerns in writing to the Program Coordinator (per the SOE Grievance Policy detailed previously in this handbook). The Program Coordinator will record and monitor the recurrence of concerns, communicate with Clinical Practice Coordinator and Clinical Practice personnel, and facilitate in determining if urgent issues require immediate resolution. If the Program Coordinator and Clinical Practice Coordinator are unable to resolve the issue, students may appeal to the SOE Director in writing.

COMMITMENT TO DIVERSITY OF PLACEMENTS: The Cal Poly School of Education is committed to preparing future educators who are ready to serve a diverse student population. This commitment is shaped by our accountability to CTC and Cal Poly policies, as well as our personal commitment to diversity, inclusion, and equity (outlined previously in this handbook).

Whenever possible, teaching candidates participate in fieldwork experiences that offer significant exposure to school settings that reflect the full diversity of California public schools. In accordance with CTC guidelines, diverse Clinical Practice experiences include: racial and ethnic diversity of students, students from families in lower socio-economic income ranges, English learners from a variety of language backgrounds, and inclusiveness for students with disabilities (CTC Guidance on Clinical Practice Supervision of Teacher Candidates, pg 5). Additionally, the SOE makes an effort to expose future Multiple Subject and Special Education teachers to a range of grade levels across their various Clinical Practice placements.

The Clinical Practice Coordinator and the Program Coordinators carefully consider exposure to diversity when assigning Clinical Practice placements, which is an added reason why students are prohibited from making their own Clinical Practice arrangements. Many of the diverse communities that partner with the SOE lay outside the immediate San Luis Obispo area, and so students should be prepared to commute between 30 minutes to 1 hour in order to gain exposure to a diverse range of school settings.

SUBSTITUTE TEACHING POLICY

During Clinical Practice fieldwork, teacher candidates may have an opportunity to serve as a substitute teacher. This policy applies ONLY to substitute teaching in the field on days that are part of Cal Poly fieldwork. It does NOT apply to days when the candidate is not required to be in the field.

- Candidates can only substitute teach in their cooperating teacher’s classroom. If there is a shortage of substitutes in the school on a particular day, the school can choose to have the teacher candidate act as a substitute for their cooperating teacher and the cooperating teacher can be the substitute teacher in another classroom.
- During Clinical Practice I, SSTEP candidates may serve as a substitute for their cooperating teacher for a maximum of 3 days.
- During Clinical Practice II, candidates may serve as a substitute for their cooperating teacher for a maximum of 5 days.
- During Clinical Practice III, candidates may serve as a substitute for their cooperating teacher for a maximum of 10 days.

To be eligible for substitute teaching, candidates must complete required forms for a school district, and they must hold the appropriate permit. Paid teaching assignments involving substitute teaching cannot be used to fulfill required days in the field for Cal Poly fieldwork courses.

STRIKES OR OTHER EMERGENCIES

The university shall maintain a position of neutrality in any strike or labor action involving school districts with which it has contracts (or agreements) for the placement of teacher candidates or other students engaged in supervised fieldwork activities. In the event of a strike or
other labor action involving a cooperating agency, the teacher candidate and other fieldwork students, if working in a unit that is directly involved, will be automatically withdrawn from the assignment and further information will be provided.

It is the responsibility of the teacher candidate or fieldwork student to notify the university that a strike or other labor action has begun, or that a strike, etc., will begin at a certain time. Should a teacher candidate or other fieldwork student accept employment with an emergency permit during a strike or labor action, the student’s teacher candidate or fieldwork student status will be terminated. As a result of such employment, the teacher candidate will receive a grade of "No Credit" for clinical practice, and the individual shall not be identified as a university teacher candidate or fieldwork student. Teacher candidates and fieldwork students are not to be coerced into crossing picket lines, nor are they to be coerced into joining a strike. Allegations of coercion are to be reported to the Program Coordinator.

WITHDRAWAL FROM CLINICAL PRACTICE

If a teacher candidate withdraws from clinical practice for medical, economic, or other reasons they must notify the Clinical Practice Coordinator and SOE Credential Office as soon as possible. If they then wish to be assigned in the next or another quarter, the Candidate must submit an updated student information form, a new STEP II application, and a signed letter, requesting the new assignment. The letter should be submitted to the SOE Credential Office along with a STEP II application. In some instances, the Candidate may be required to submit a new application to the University. Communication with the SOE Credential Office is key to determining whether this applies to a Candidate’s situation.
