

FUELS REDUCTION FOR COMMUNITY WILDFIRE RESILIENCY FIELD TRAINING

SAVE THE DATE!

FRIDAY, OCTOBER 13TH

SOUTH LAKE TAHOE, CA

10AM-5PM

You are invited to join the Tahoe Fire and Fuels Team and Cal Poly's Fuels and Vegetation Education Program for a field-based training that spans multiple fires in the Lake Tahoe Basin. In this field training, participants will visit several sites within South Lake Tahoe to better understand how the implementation of local fuels reduction projects played an important role in safeguarding lives, properties, and the environment within the Lake Tahoe Basin from wildfire. This training is an opportunity for agencies to engage in a skills-based advocacy building exercise with local community leaders in an effort to create consistent messaging within the community and grow the local network of Fire Adapted Communities.
