Note: Cohort is based on rules similar to those used for the first-time freshmen cohort as defined in the federal Student Right-to-Know Act. Students transferring and entering Cal Poly from another institution as juniors or higher in the fall term or the immediately preceding summer term and who were enrolled full-time in the fall term. In addition, deceased students or students who left for military service are allowable exclusions; therefore, persistence rates are calculated on a revised cohort that may be slightly lower than the original cohort. One-year retention rate includes a small number of new transfers who graduated within one year.
